## Sweet Words

### Salama during Eid Al-Adha

#### Hello Dear friends..

Of the finest and purest spots on Earth is Mecca; it is Al-Kiblah for all Muslims, and its Kaaba is the compass and centre of the world. All eyes and hearts turn towards Mecca during the ten days of Dhu al-Hijjah, where the angel descended, the home of the message and beacon to the world. Men and women clothed mostly in white, cheerful and supplicating, heading towards the Sacred House and seeking to perform the fifth pillar of pilgrimage.

Great crowds amassing, shoulder to shoulder, all in one voice praying to Allah, while they head to Muzdalifah to complete Hajj, and return to their homes, hopefully purified and their sins erased just like new-borns.

Allah, bestow your blessings upon us, and make us among the visitors to the Sacred House... Amen.

Salama magazine wishes all pilgrims acceptance from Allah, and for all a happy Eid.

## Traffic Department participates in "Summer without Accidents"

The Traffic Department is participating in the Ministry of Interior's traffic awareness campaign, "Summer without Accidents", which will continue throughout the third quarter of 2018. The Department's activities in the campaign include billboard and roadside signs promoting good driving in the streets of Dubai, and social media messages, in addition to an educational video screening at Customer Happiness Centres and driving institutes, along with related activities in children and youth summer camps.

## Salama's characters make an appearance at Dubai Scout Mission

The Traffic Department has taken part in Dubai Scout Mission's summer activities, offering the young scouts valuable traffic safety information through video screening, colouring books covering public and pedestrians' safety. Characters from Salama magazine also participated, adding a touch of fun and excitement to the activities.

The Traffic Department has organised traffic awareness lectures for drivers from Al-Rawabi, Souq.com and Apparel, focusing on the latest updates and amends to the bylaws and regulations of the Federal Traffic Law, and how they relate to road and driving safety.

### Traffic awareness flyers for travellers at Ghuwaifat and Automobile Club

Travellers through the Ghuwaifat border crossing were handed flyers containing safe driving tips while driving from the Traffic Department, in cooperation with the Ministry of Interior. Traffic Awareness employees posted at the border checkpoint gave the flyers to travellers and wished them a safe journey. The safe-driving flyers were also made available at the Automobile and Touring Club of UAE.

### Traffic awareness video clips now at eLife channel

Traffic awareness educational videos are now available for the public on eLife Family channel, following an agreement made between the Traffic Department, the Family Development Foundation and Etisalat Corporation. Viewers can now watch these videos through the eLife subscriber's device by accessing Menu-My Media-Video Pack-Family Platform.

### Traffic lectures delivered to Al-Rawabi, Souq.com and Apparel drivers

### Child's seat awareness workshop held at International Hospital

The Traffic Department has organised an educational workshop on a child's car seat for mothers and visitors at the International Hospital. The workshop was delivered by a specialist from Al Areen Group, who guided the audience on the accurate and safe way to install the child's seat. The workshop was concluded by a draw, where the winning mothers were handed a child's seat from Johnson's Baby and two bags of Cetaphil baby products.

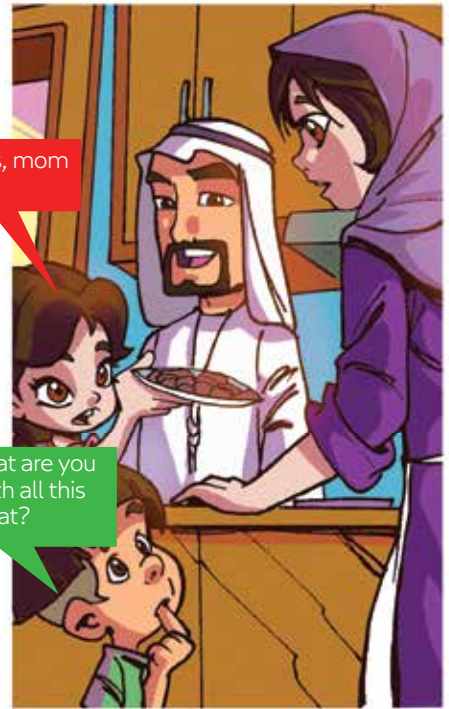

## Happy Adha

Do you need more meat pieces?

Here it is, mom

Mom, what are you doing with all this meat?

Yes... There are three more plates left

I put them in separate plates, and your father will distribute them to the poor and needy people

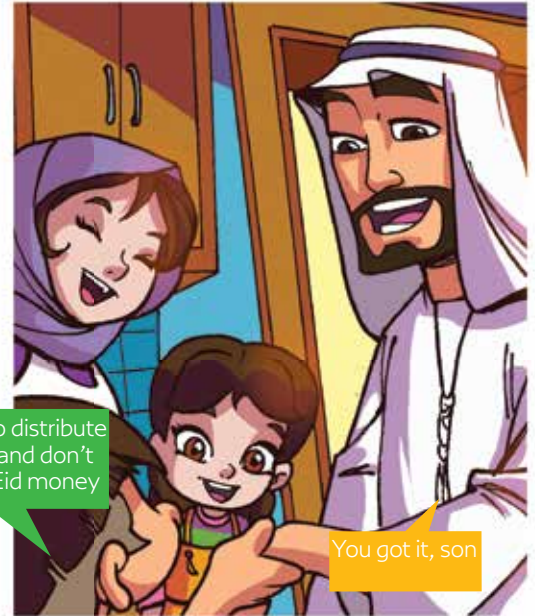

But, mom, the meat is not cooked!

We always give it like this, so that people can cook it the way they like

But why do you do this at all?

## Let's Invest in Time

And you, Yasser? I know you like to play the piano. You can join a piano course to become a better player. What do you think?

Your mother can also join a computer course, and I will join you in another swimming course

That would be fantastic, dad

The two boys started to make good use of their time. Saeed has learned many football skills

Meanwhile, Yasser has become a much better piano player

The whole family ended up using their vacation time to benefit from learning arts, sports and other skills

Saeed and Yasser went to bed at 9 in the evening

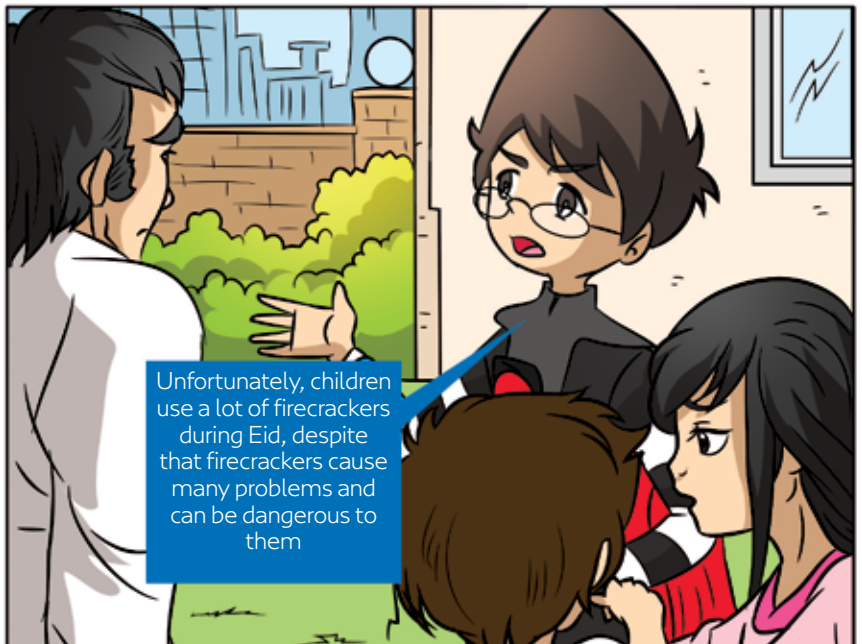

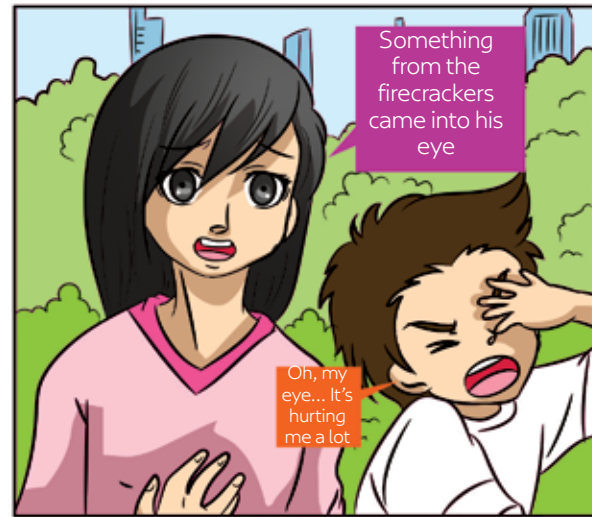

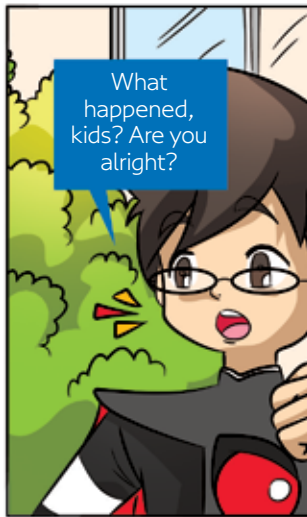

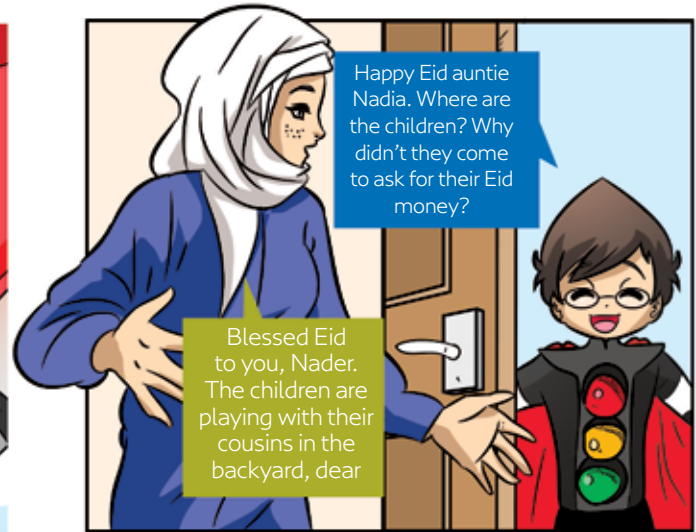

Thank God... You see? I was right about having them use their free time in something beneficial.

## An Act Worthy of Praise

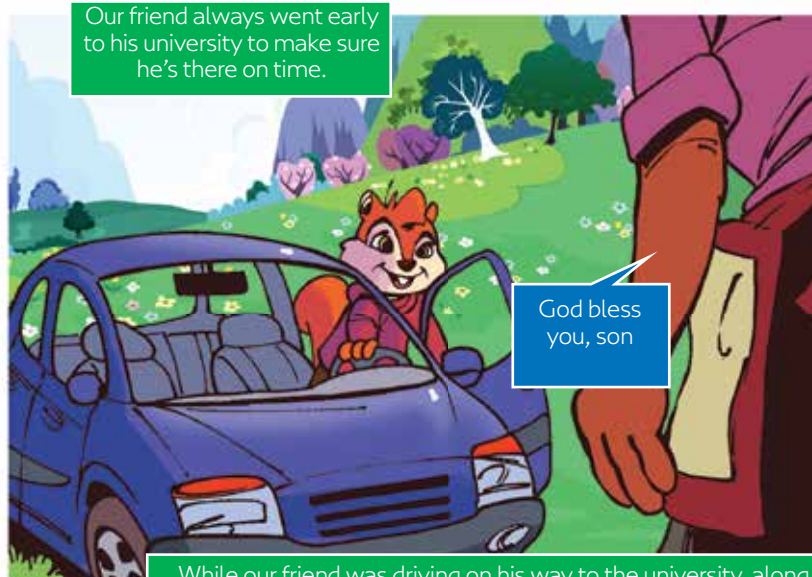

This is the squirrel... As always, he's a hardworking student, organised and listens to his teachers and parents.

He is also a very good son.

Let me help you, dad. You go have a rest

Our friend always went early to his university to make sure he's there on time.

God bless you, son

He was also a careful driver who always followed traffic rules

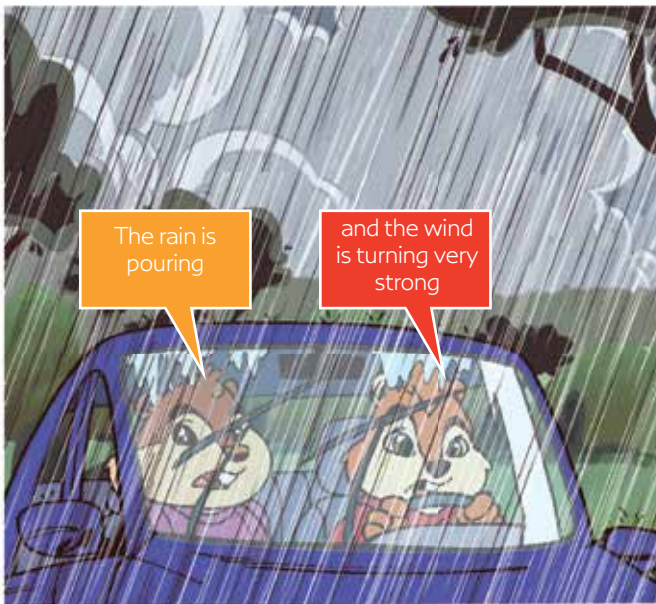

Your timing is always perfect to the minute

How are you, my friend? Please, hop in

While our friend was driving on his way to the university, along with his friend, clouds appeared in the sky followed by heavy rain and strong wind.

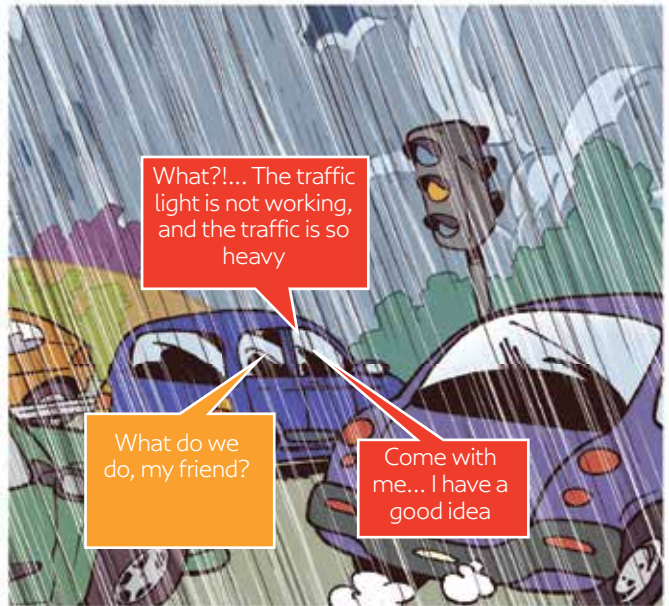

The rain is pouring

and the wind is turning very strong

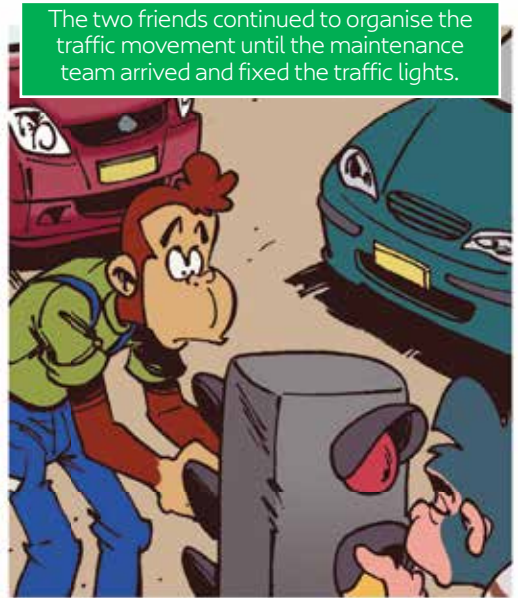

What?!... The traffic light is not working, and the traffic is so heavy

What do we do, my friend?

Come with me... I have a good idea

Squirrel and his friend took the initiative to organise the traffic, and despite the bad weather they managed to do a good job.

The two friends continued to organise the traffic movement until the maintenance team arrived and fixed the traffic lights.

As the storm calmed down and traffic returned to normal following the signal repair, police officer Arnoub arrived in the scene.

I would like to thank you both very much... You did an exceptional volunteering work.

## Endangered Species – Kiwi Bird

Scenario: Eman Hosny illustrations by: Shaimaa Ibrahim

Hello, my friends.  
Do you know what  
endangered animal  
species means?

They are animals  
that are threatened to  
become extinct from the  
face of the Earth, just like  
what happened to  
dinosaurs in ancient  
times

The kiwi lives mainly  
in New Zealand, and it is  
the country's national  
bird. Despite that it is a  
bird, it has no wings and  
thus cannot fly.

It has relatively long  
and strong legs, which  
help it to run fast and  
away from its predators.  
Running is actually its  
only defence.

Zoologist James  
Seals expects a drop in  
the numbers of six types  
of kiwis in New Zealand  
over the next few years to  
reach a total of less than  
57,000 birds.

In 1991, the  
New Zealand government  
launched a programme to  
protect the kiwis and save  
them from extinction after  
they became easy preys  
for dogs, cats and wild  
animals.

## What can we do to help endangered animals?

### Recycling

We have to make sure that we always recycle plastic, tin and paper products in order to not exhaust our natural resources

### Minimise consumption

By reducing the amount of products that we use, we will also be preserving our environment. For example, we can write on both sides of a paper instead of one to use less paper

### Re-use

We should select the products we buy carefully, like bottles of water that we can refill instead of those we trash

### Plant a tree

Many animals use trees for shelter and protection or even to find food. The small tree we plant today will become big one in future and help those animals

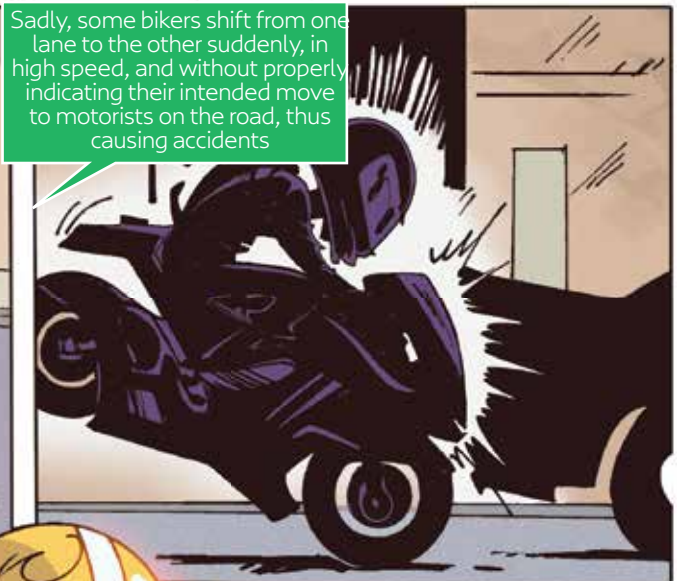

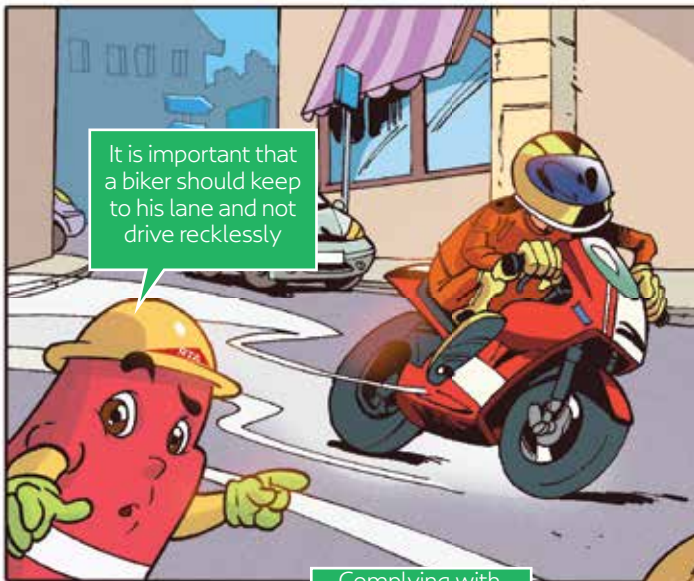

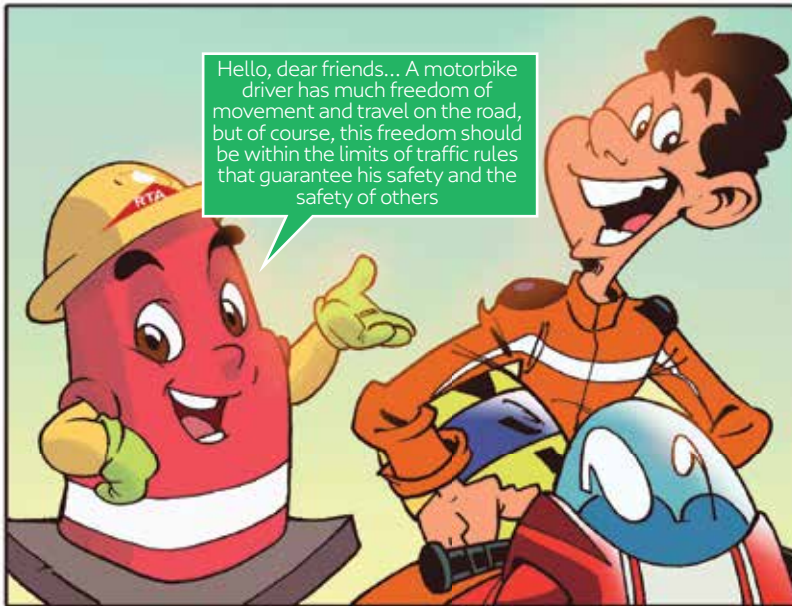

The most significant thing we can do is to protect and care for our precious world and environment

By reducing our consumption, reuse and recycling of products, we will be contributing to the protection of the natural habitats of endangered animals

"The Lion King"

## The Lion King

It is an animated film produced by the leading cartoon studios, Walt Disney Animation Studios, in 1994.

The story is about a small lion cub called Simba, who was supposed to take his father place one day as king of the jungle. But the lion king had an envious brother who plotted against the king and killed him. Little Simba then runs away outside the jungle with his two best friends who always stayed by his side. When Simba grew up, he returned to the jungle to revenge his father's murder and take his place since he was the legitimate king of the jungle.

The plot is very captivating and exciting, full of epic fighting scenes with many comic instances. The film, which was made in 2D technology, was a big success, reaping huge profits.

## Grilled Vegetables

Hello my dear ones...  
Vegetables have numerous benefits for the body because they are full of minerals, vitamins and other nutrients. And today I present to you a recipe for a delicious vegetable dish

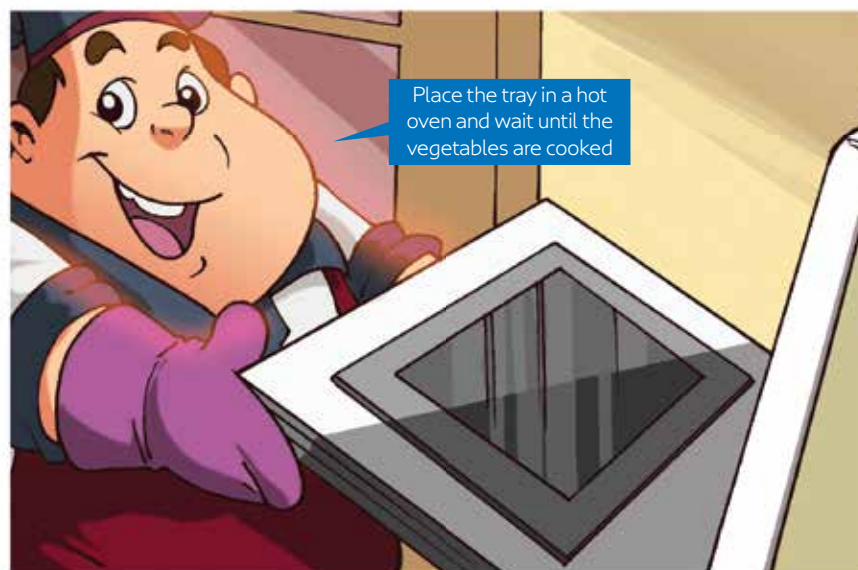

We need one onion and one of each of the following: marrow (kousa), eggplant, carrot, green pepper (capsicum), in addition to olive oil, salt and pepper

Cut all the vegetables into large cubes, and place them in an oven tray

Then add oil on the vegetables, and sprinkle some salt and pepper

Place the tray in a hot oven and wait until the vegetables are cooked

Now our delicious dish is ready to serve... Enjoy!
