## Sweet Words

### Eid al-Adha

#### Hello Dear friends..

Eid al-Adha ,»Feast of the Sacrifice«, is the second of two Islamic holidays celebrated worldwide each year. It honors the willingness of Ibrahim (Abraham) to sacrifice his son as an act of obedience to God's command. But, before Abraham could sacrifice his son, God provided a lamb to sacrifice instead. In commemoration of this, an animal is sacrificed and divided into three parts: one part of the share is given to the poor and needy; second part is for

the home, third is given to relatives. During Eid al-Adha, distributing meat amongst the people, chanting the "Takbir" out loud before the Eid prayers on the first day and after prayers throughout the three days of Eid, are considered essential parts of this important Islamic festival. Men, women, and children are expected to dress in their finest clothing to perform Eid prayer in a large mosque. Salama and her family gather with their big family and friends to celebrate this happy occasion together. What about you my friends? .. Have a blessed Eid and happy holidays.

## Driving ethics

The friendly bear arrived to one of the markets.

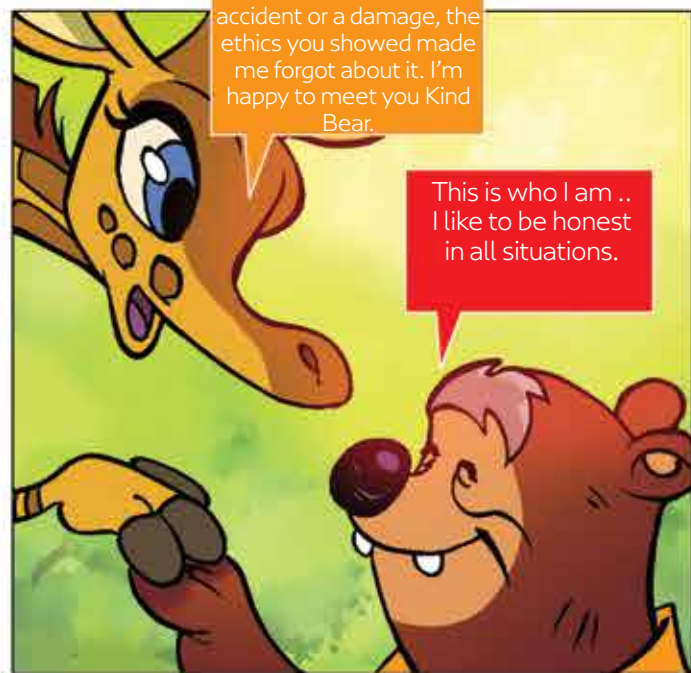

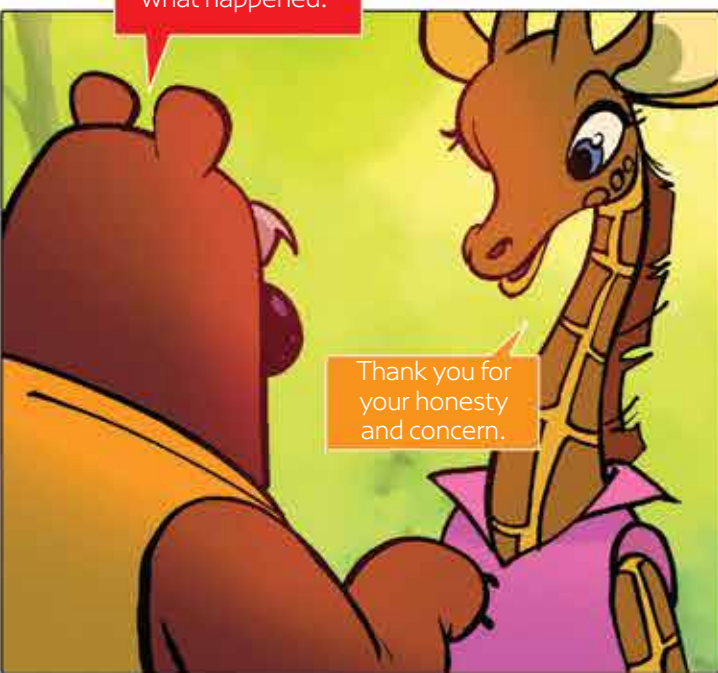

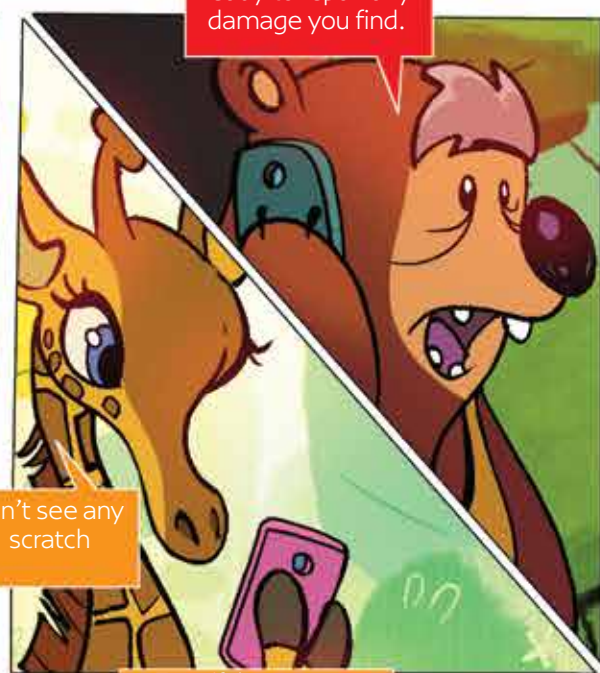

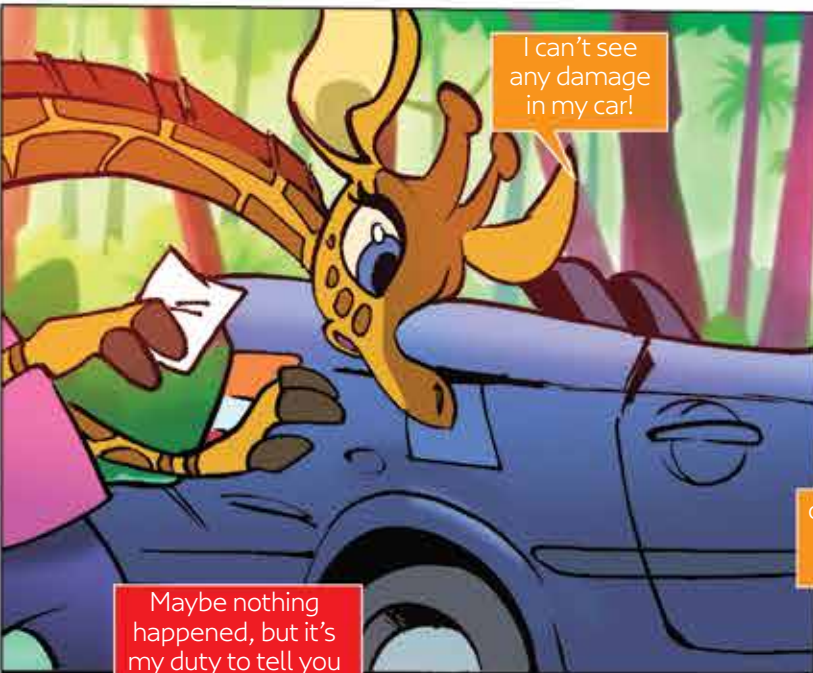

When the friendly bear finished shopping he went out and put his purchases inside his car trunk.

As he left the parking, his car touched the car next to it and scratched it with a slight scratch that he could barely see.

Oh! I forgot buying onions and sweet potatoes.

Thank you Dad, I learnt all that from the school

I learnt to reduce the amount of water used by an older toilet by placing a one-gallon plastic jug of water, or two one-quart bottles, in the tank to displace toilet flows.

That's why I found bottles placed in the toilet tank. I thought your little brother was playing

God Bless you

No, it was me, Mom... I wanted to try it myself. Alternatively, you can install a dam that partitions off a section of the tank so it can't fill up with water. These methods can save over 1,000 gallons (3,785 liters) of water per person per year.

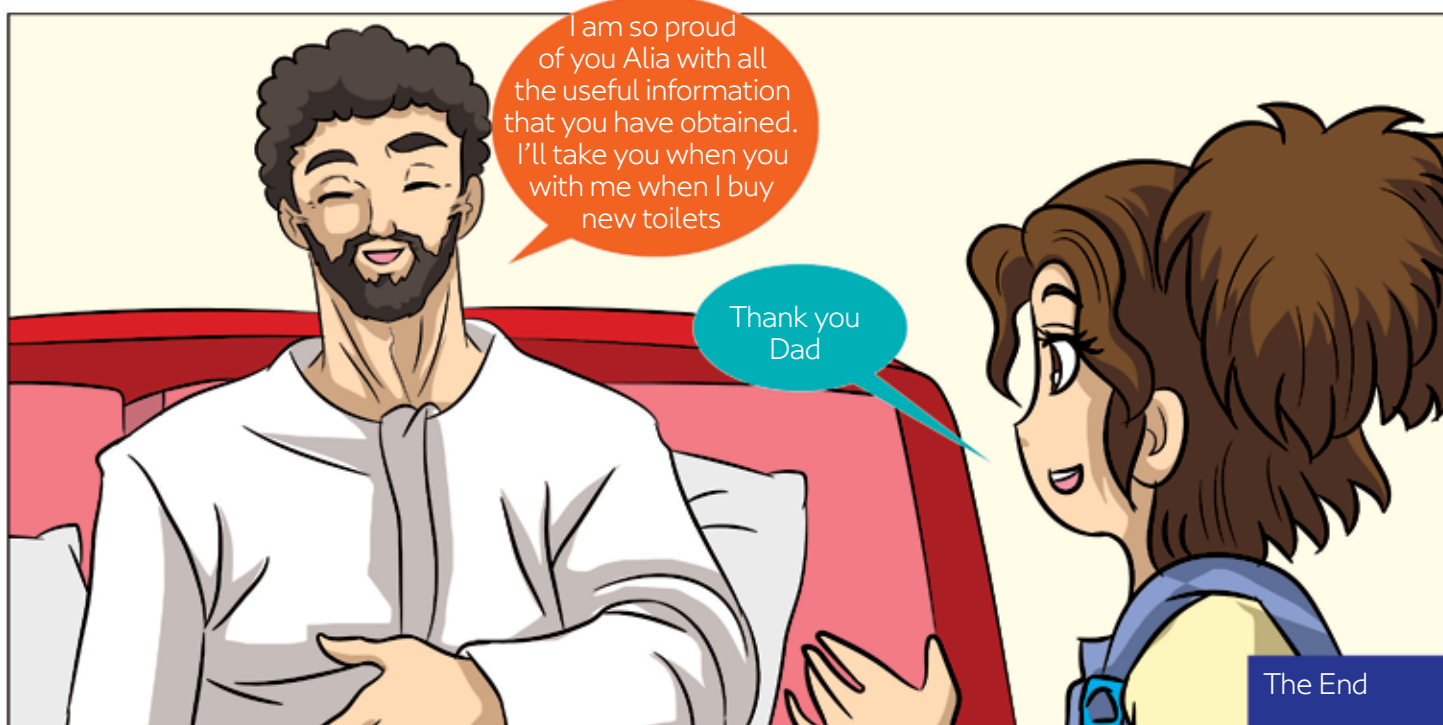

Toilets should be checked periodically for leaks and repair them promptly.

Sometimes, it might seem easier to simply throw waste straight into the toilet. However, every time you use the flush to get rid of your rubbish, you are also wasting around 5 liters of water.

This is a bad habit, I always ask everybody not to do it, I'll put a bin right next to your toilet to make things more convenient.

Nice idea Mom

I am so proud of you Alia with all the useful information that you have obtained. I'll take you when you with me when I buy new toilets

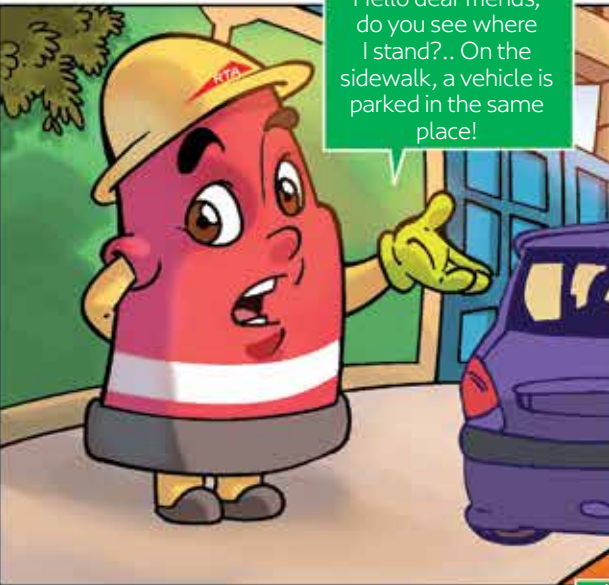

Thank you Dad

## No Excuse

Hello dear friends,  
do you see where  
I stand?.. On the  
sidewalk, a vehicle is  
parked in the same  
place!

There is no justification  
for violating traffic  
laws, such as finding  
cars near restaurants or  
markets standing in the  
middle of the street  
using buying things as  
an excuse

Parking on the  
sidewalk puts  
the lives of  
pedestrians and  
other motorists at  
great risk

If the parking is  
full, it is better  
to look for an  
alternative place  
or to choose a safe  
place for everyone

As well as causing traffic  
jam and  
obstruction of  
the path

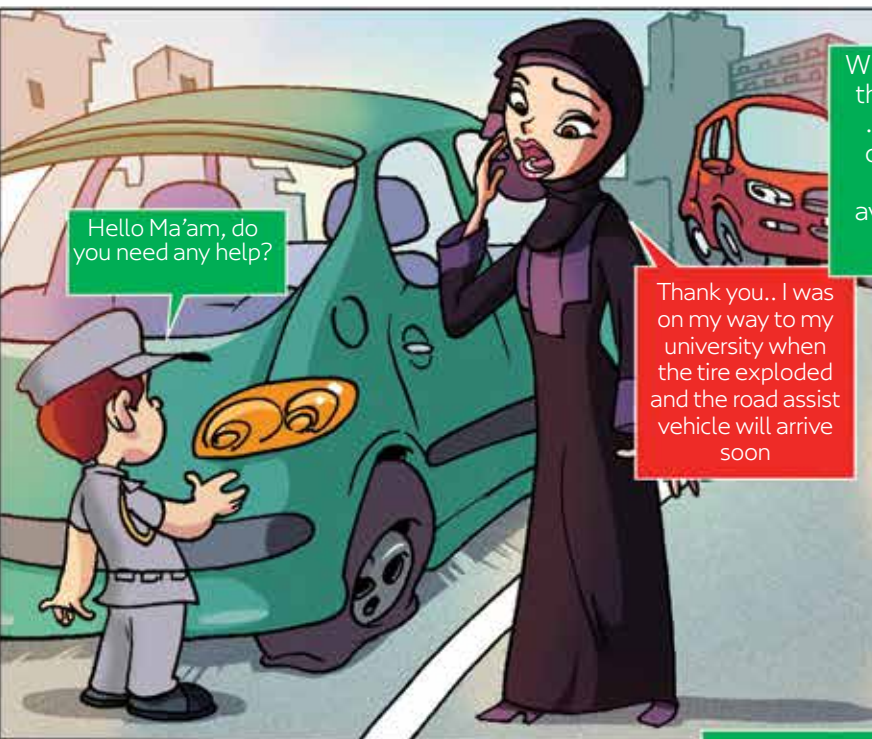

This act is an explicit  
violation of the law  
subject to a fine. Let us  
always remember that  
the traffic laws have  
been developed for our  
safety
