Bullying

Hello Dear friends..

Bullying is a repeated aggressive behaviour intended to intentionally hurt others, physically or psychologically, or the desire to control them. These behaviors include name-calling, verbal or written abuse, intentional exclusion from activities or social events, physical abuse or coercion.

Bullies may behave in this way in order to be perceived as likeable or powerful, and this may be done for the sake of attention, out of jealousy, or because they have been subjected to such acts by others.

We, in the UAE, are under the protection of a law that criminalizes all acts of contempt, threat or harm to others' dignity or, combats

all forms of discrimination, and rejects hate speech through various means and methods of expression; whether written, verbal or physical.

When we get exposed to bullying, we must turn to those we trust, and frankly tell them about what worries us, and ask for help. We also have to stay away from those who hurt us in any way, because our body is a trust, so we should safeguard it by living within a safe society free from bullying.

Salama: A new version for smart devices

Introducing "Salama" application on the Ministry of Education website

تفاصيل الإعلان

أهلاً بكم

أنا سلامة

أحد تطبيقات هيئة الطرق والمواصلات

Thousands of students and visitors to the Ministry of Education website can now view a promotional video for the "Salama Magazine" application, explaining how to download it on smart devices. This plan comes as part RTA's cooperation with the Ministry of Education and many government and private entities to promote the application and explain how to download it on smart devices, especially after releasing the latest version with a new interface that includes new stories and entertainment materials.

The Traffic Department has introduced extensive updates to the "Salama Magazine" smart application. Many subscribers and those who will download the application to their smart devices are now able to take advantage of the new updates which have been made available as of 2021. In addition to changing the application interface completely, the latest updates included adding background music, creating a movable character of Salama, introducing a special page for Grandma Ousha stories, and adding new instructions for the latest augmented reality games.

Educating students remotely

The Traffic Safety Department has organized a series of remote awareness lectures for school students, as part of a program launched following the outbreak of the novel Coronavirus in March, last year.

The lectures outlined the safety instructions when using bicycles and encouraged students to download the Salama smart application, and engage in topics and competitions available on it.

How is that?

Can you show me your pictures in the WhatsApp group?

There are a lot and things got even worse after some friends started posting my pictures to other school groups

He funnily plays with my pictures so that I look silly and reposts these pictures to a WhatsApp group and the rest of my friends laugh at me

How does he do that? Why didn't you tell me before so that we could have stopped him?

I was afraid that you would get angry with me when you saw my pictures as a girl wearing makeup or my face on an animal body

You are a good boy and I do not get angry at you. As for this bully, there are authorities in our country that could stop him and take necessary actions against such disgraceful behaviour.

Really .. Really, Dad, will Saeed stop publishing such fabricated photos?

I promise you I will speak to the school administration to inform that bully's father, and if he continues to bully you, the smart App (Hemayati) launched by the Ministry of the Interior will help us report the case and protect children from abuse

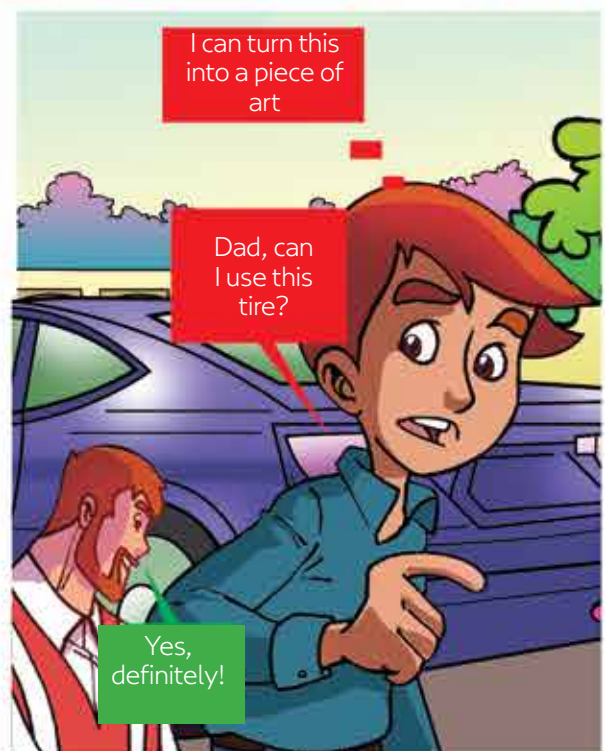

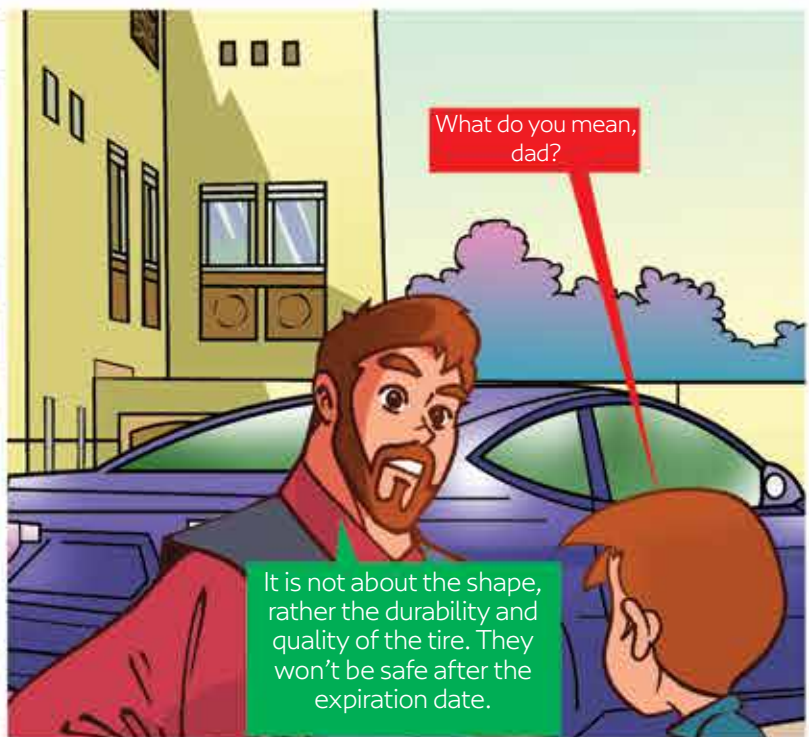

Thank you, Dad ... I feel so happy

Come on, son, let's go to wherever you want

Engineer Salem

Recycling Tires

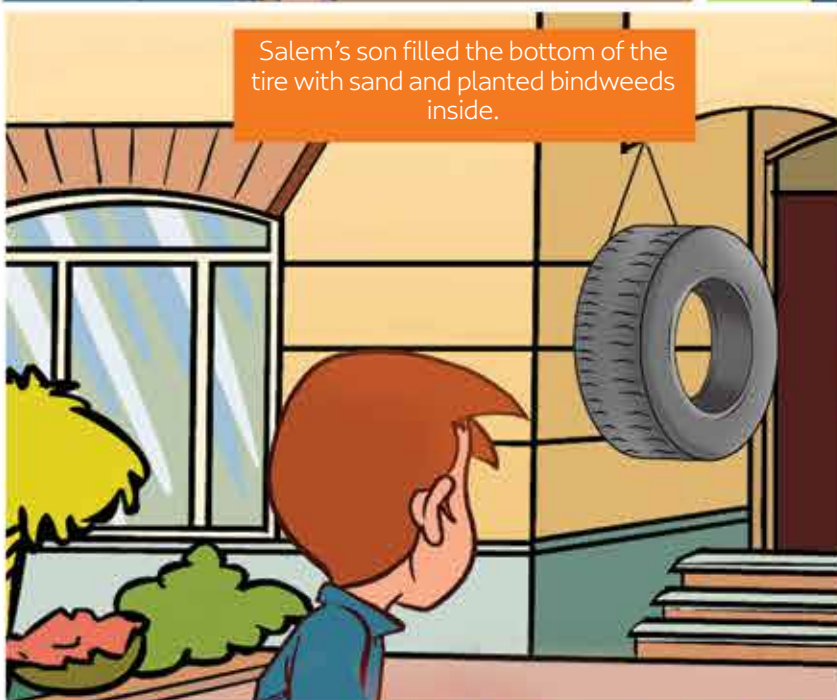

Ahmed started cleaning the tire and placed a rope in the middle.

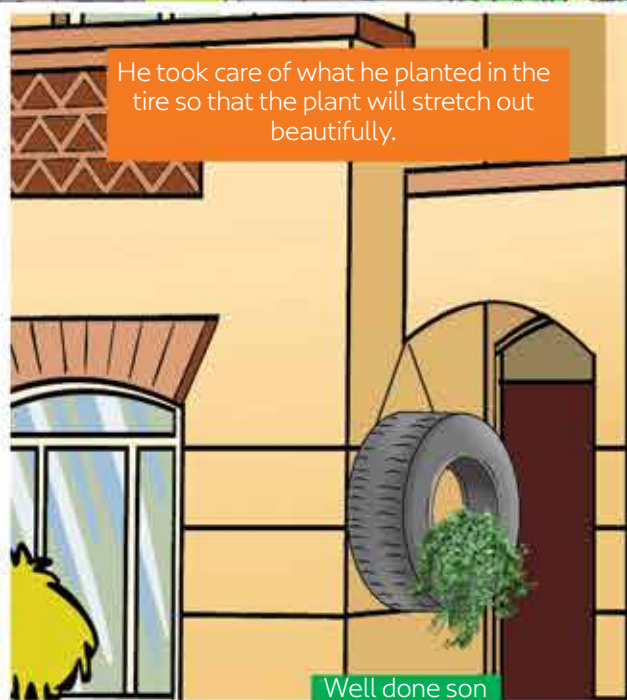

The tire was hung with a rope in a corner near the house entrance.

Salem's son filled the bottom of the tire with sand and planted bindweeds inside.

He took care of what he planted in the tire so that the plant will stretch out beautifully.

Well done son .. you turned the tire into a masterpiece

Great job, artist

The school has organized a trip during the mid-year holiday to discover new places in the UAE.

I'm very excited about going to Hatta

Me too..I love getting to know more about all places in my country

Have fun boys, but also keep the bus quiet and clean!

Can I tell some riddles and jokes Teacher?

Of course, that's nice, and we won't feel like you are travelling a long journey

I also want to, I also want to

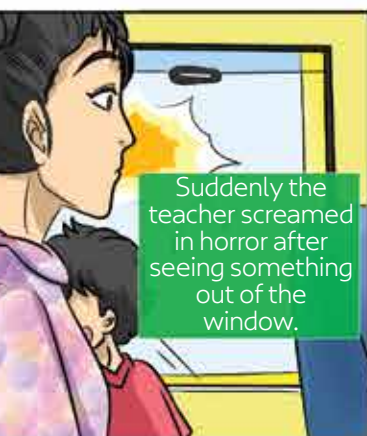

you will all get a turn, but let us stay calm so that we don't disturb Uncle Rashid while focusing on driving

While everyone was enjoying some time of jokes and riddles, Saeed and Khaled started to fight, and the teacher tried to calm them down, but their voice rose higher and they almost engaged in hand-to-hand combat, which bothered Uncle Rashid, who turned to them saying:

Stop, boys ... I cannot focus on driving.....

Suddenly the teacher screamed in horror after seeing something out of the window.

Watch out

Meanwhile, Nader was making his daily tour over the UAE ...

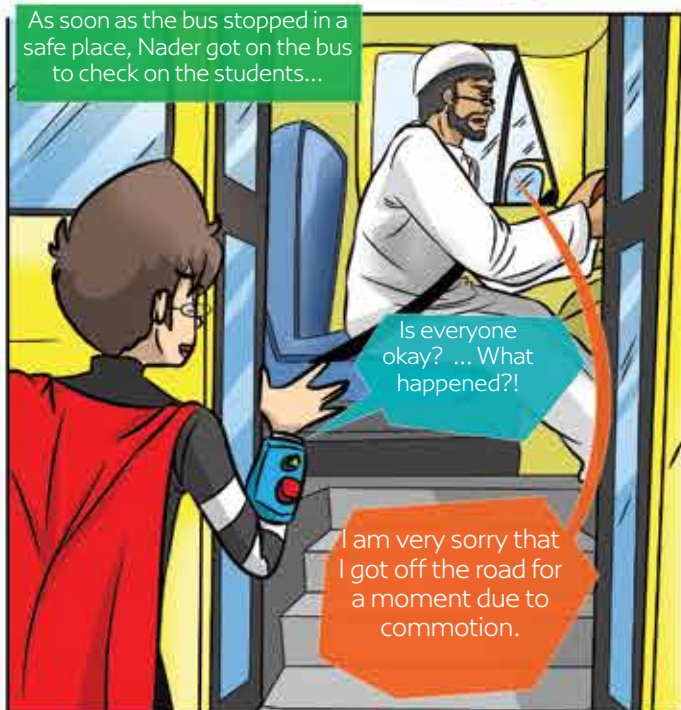

and he noticed a school bus veering off the track towards a nearby vehicle.

Oh my God!

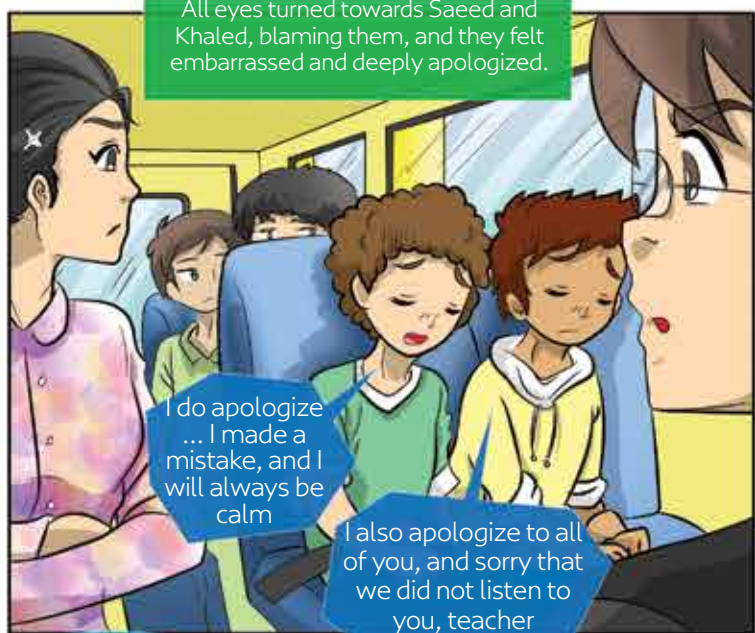

Nader rushed towards the bus and steered it away from the car

As soon as the bus stopped in a safe place, Nader got on the bus to check on the students...

Is everyone okay? ... What happened?!

I am very sorry that I got off the road for a moment due to commotion.

All eyes turned towards Saeed and Khaled, blaming them, and they felt embarrassed and deeply apologized.

I do apologize ... I made a mistake, and I will always be calm

I also apologize to all of you, and sorry that we did not listen to you, teacher

Boys, whenever we are on the bus or any means of transportation, we must always remain calm and stay in our seats. Never stand up to look out the window until we reach our destination safely... Remember this well!!!!

Thank you, Nader, you saved us all

And the trip too

HA HA HA

Traffic Jungle

Towards a better environment

The two neighbours, the wolf and the bear have been fighting over the pool for ages, causing lots of troubles in the neighbourhood.

This is not their problem alone; it is for the entire neighbourhood. Look at that pool, it looks ugly and has accumulated dirt

It may bring us diseases if it remains so

I have an idea that might be the best solution

What are you waiting for?! ... Tell us now

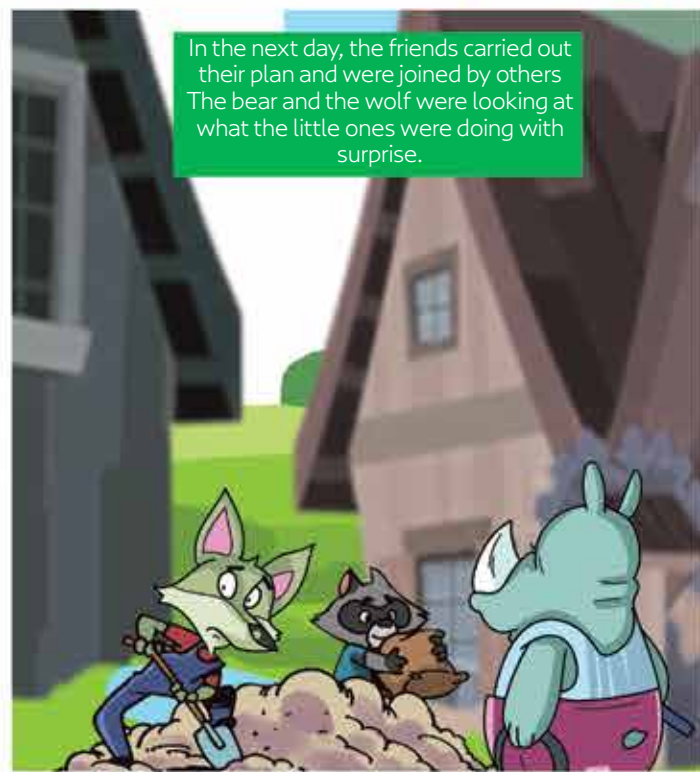

We and the rest of our friends in the neighborhood will work to transform the pond into a beautiful place surrounded by flowers

Great idea .. but can we do that?

Yes, if we come together and work in a team spirit, we will definitely succeed

In the next day, the friends carried out their plan and were joined by others. The bear and the wolf were looking at what the little ones were doing with surprise.

After cleaning the place, the little ones planted it with flowers.

After days of non-stop work, the place appeared beautifully, which made the bear and the wolf feel ashamed of what they had disagreed over and applauded the little ones on such creative work.

How to create a wonderful swimming pool for birds

Senario & Illustrations: Shaimaa Ibrahim Gamil

in the previous issue, we made a bird feeder in the

backyard...and now I'm thinking of making a simple swimming pool for birds. It is a quick and easy way to attract birds

Soon after we get it ready, birds will come to our yard to drink and rejuvenate. And we can see them from the window.

These include:

Tall vase

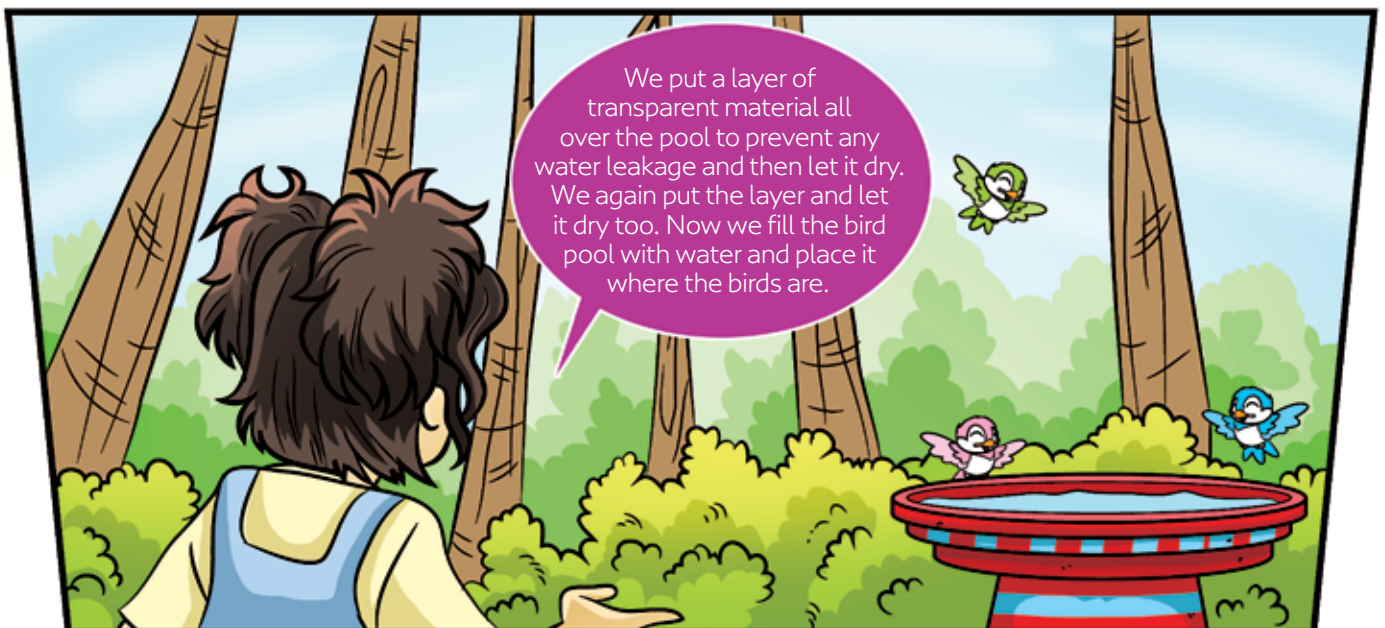

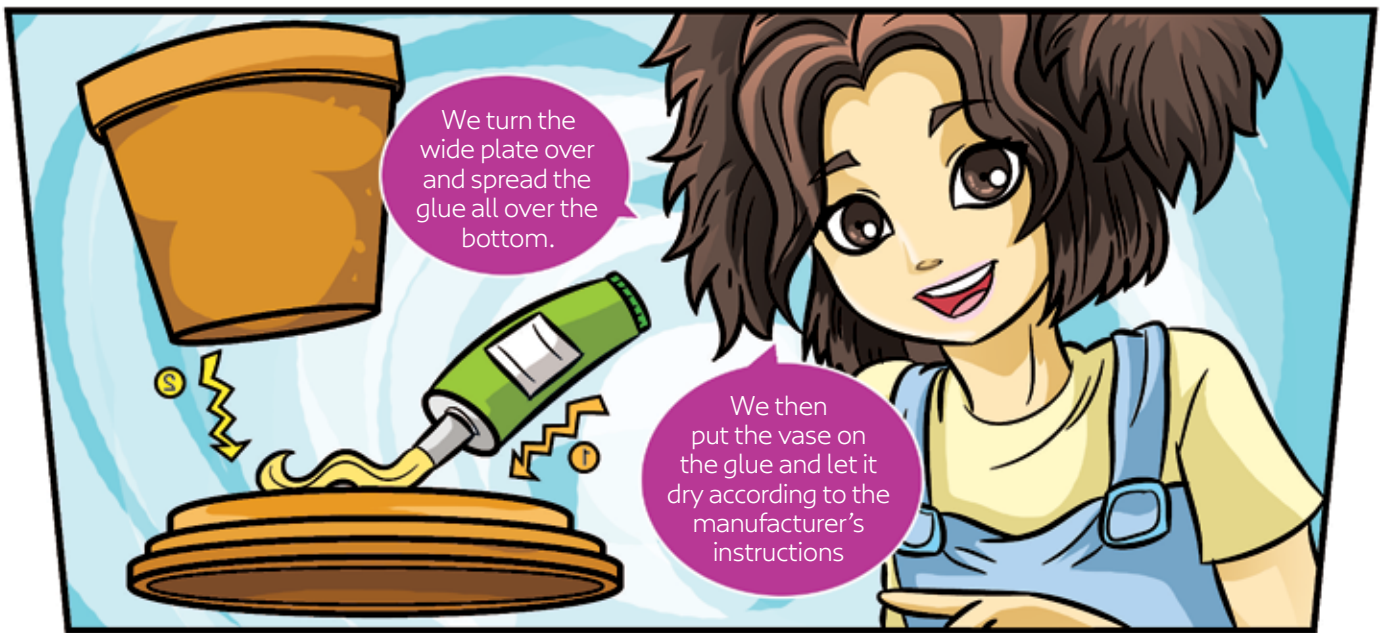

Wide plate to put the vase on

It requires simple materials

Exterior Adhesives such as PL400

All-weather waterproof ceramic coating

Virus Protection Guidelines

Hello my friends. Today, I have some necessary guidelines to protect against virus infection that affects children during winter

The child should make sure to wash his hands with soap and water before and after food, and also after sneezing or coughing

sneeze into the sleeve, not the hand, or use tissues when you sneeze or cough

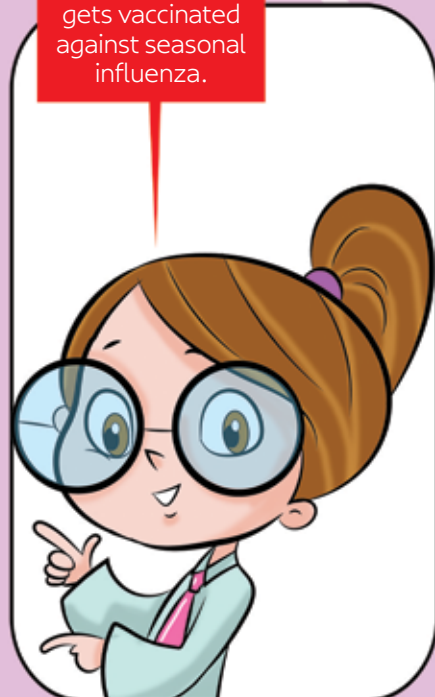

Drinking liquids, such as orange juice or lemon juice, during illness, to restore the liquids lost by cold and sweating.

Also, hot herbs such as ginger, star anise, caraway and guava leaves sweetened with some honey

It is necessary for the child to drink 6 glasses of water daily with and if he gets vaccinated against seasonal influenza.

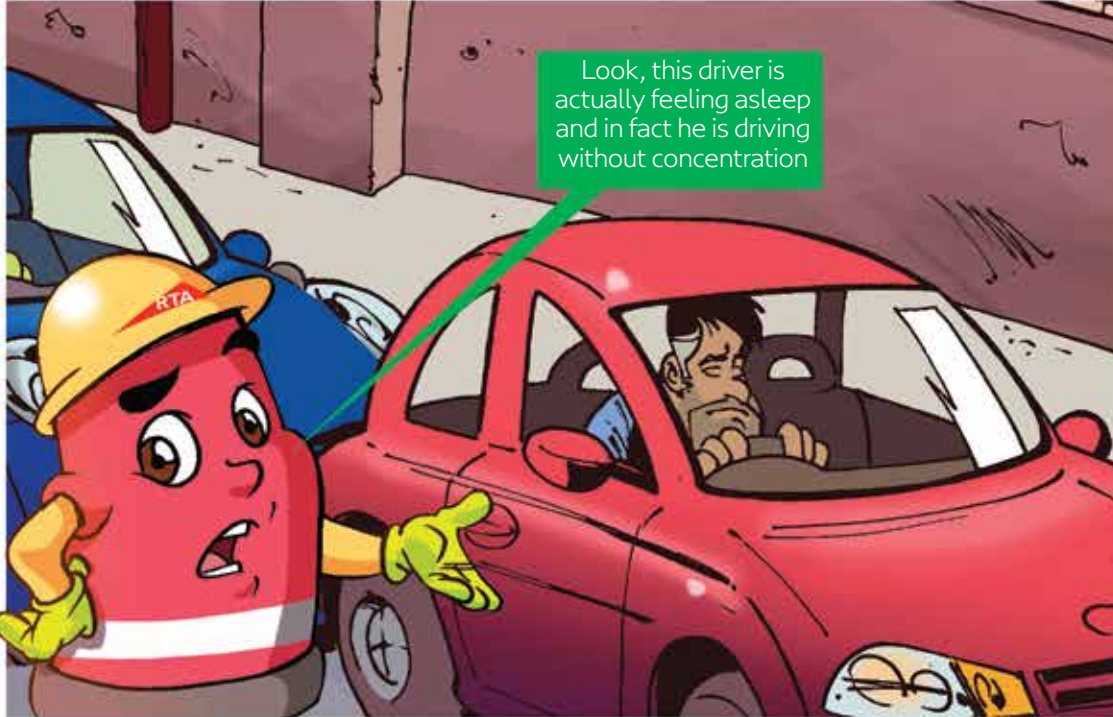

Sahih, The Roads Friend

Dangers of drowsiness while driving

My friends today will talk about a very important topic which is the danger of getting sleepy while driving

Look, this driver is actually feeling asleep and in fact he is driving without concentration

It is very likely that the car will deviate from the road and an accident happen God forbid

The most dangerous is if he is driving on an external road or for a long distance

All motorists have to take a break and stop at rest stations so they can concentrate well on their way...Stay Safe
