Exams month

Welcome Dears

As we come close to the final semester exams, and while we bid farewell to our school year, at the time we go through our challenge to overcome the conditions associated with the Covid-19 pandemic for the second year, and learn from our home country's progress how to defy all the circumstances, doing the impossible, and moving forward with determination.

Before the exams, we have to get ready through making a schedule for revising the lessons and dedicating sufficient time for studying in a suitable environment, using shapes and graphs that help us to retrieve the information fast and easily; to do exercise on the previous exams and tests, and join forums and groups of distance learning, we have to avoid staying up at night and shall have enough sleep and get up

before dawn as the mind becomes fresh and ready to absorb new information; it is necessary to take breaks during studying and finally to make ourselves psychologically and physically ready for the exams. From these advices we aim to learn to be at the level of our leaders' determination, strive, learn and give our time to compete with the developed countries using science and knowledge, because with science only countries develop and the people live in safety and security.

Top Scoop

Ramadan safety campaign

The Traffic Department launched the Ramadan safety campaign “Enjoy your Iftar & stay safe on the road” with Dubai Taxi Corporation and partners in the private sector. An awareness leaflet on safe driving during Ramadan was distributed along with iftar meals to the taxi drivers and trainees at the driving institutes. The campaign was supported by Dubai Investment Park, Michelin Tires, Emirates Driving Institute, Dubai Driving Institute, Emirates Transport Driving Institute, Bin Yaber Driving Institute.

Awareness Activities for the Heavy Truck Drivers

The awareness campaign for the heavy truck drivers continued in many areas in Dubai and particularly at the rest stops of the trucks, where an awareness book “Directory of the Trucks’ Safety’ was distributed to the drivers, in addition to checking the heavy truck tires and providing advices through direct meetings with the drivers, while listening to their suggestions and responding to their inquiries.

Slow down and move responsibly, it's a school area

Salama

All set for exams

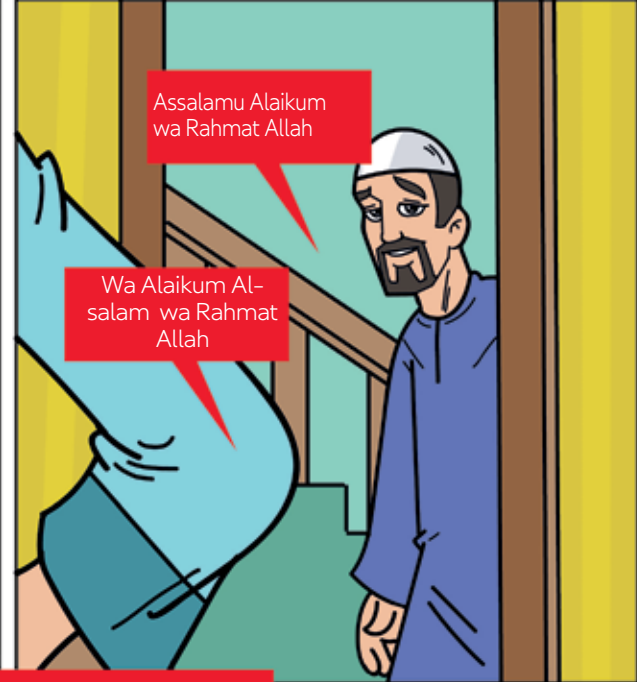

Scenario: Lolwa Thani

What is happening Mom, do you know something that I don't know?

Calm down Salama, and take enough rest and sleep during the exam time.

Assalamu Alaikum wa Rahmat Allah

Wa Alaikum Al-salam wa Rahmat Allah

You look worried Salama which is not your habit?

I am afraid that the exams will be difficult this year

I don't want to increase your worries, but it should be difficult, otherwise, how the teacher differentiates between the diligent student and his laggard colleague.

Listen to your Dad and not to exaggeration of your classmates, and remember the importance of going through the lesson carefully until it sticks in your mind.

look around you Salama, our house is so quiet, and you can concentrate on your study, don't forget to take healthy food all the time.

Now tell me what is your exam for tomorrow?

It is Arabic Language

it is your favorite, prepare yourself very well and depend on Allah.

Crowds at the Accidents

what crowd?!

normally the road is clear at this time!

maybe there is an accident

what's wrong why?

we will be late, there is 15 minutes only for the time.

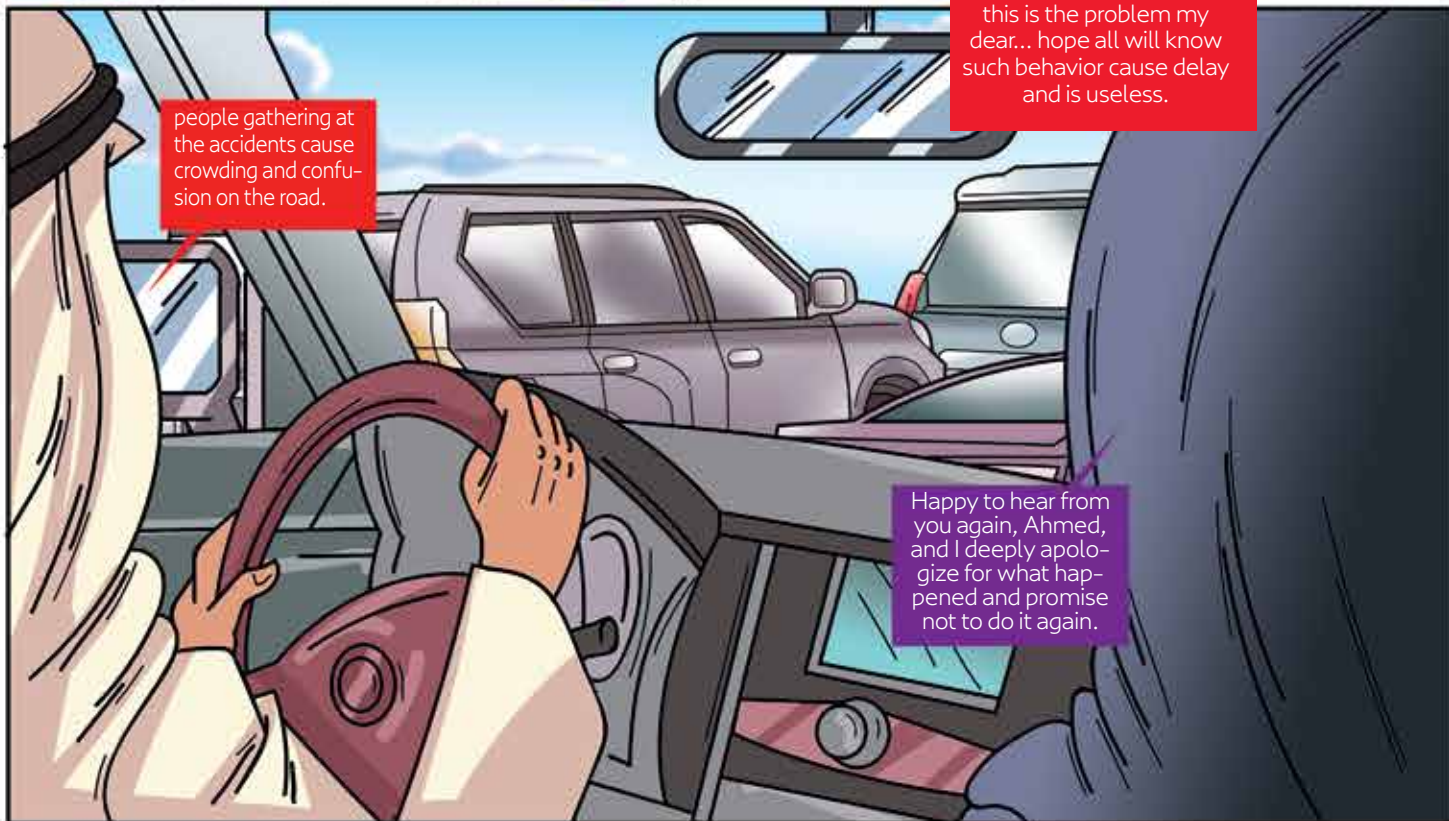

long time passed, while Salem and his Wife are hanging in the crowd.

more than 20 minutes, we only moved a little.

what was the reason for all this crowd?!

people gathering at the accidents cause crowding and confusion on the road.

this is the problem my dear... hope all will know such behavior cause delay and is useless.

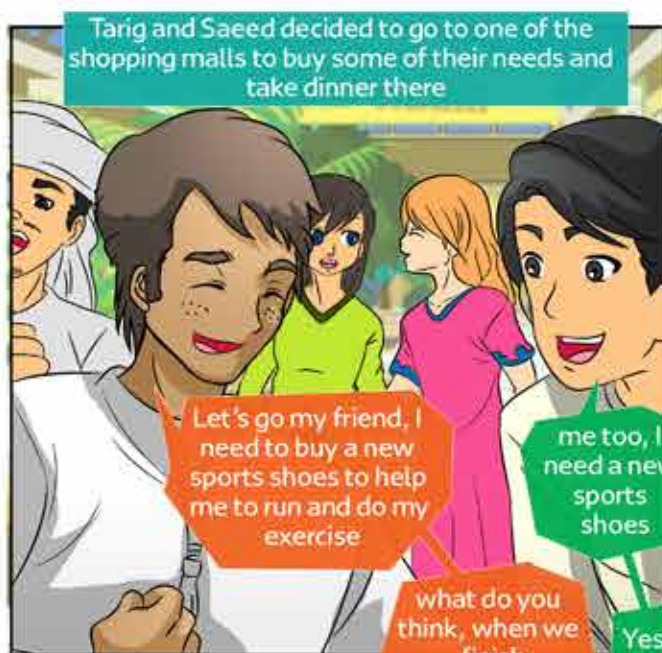

Happy to hear from you again, Ahmed, and I deeply apologize for what happened and promise not to do it again.

Keep it clean

Illustrations by: Shaimaa Ibrahim Gamil

Senario: Hamsa Bakhit

Unfortunately, Saeed didn't turn off the water tap

Tssshhhhhh

At that time Hero Nader was walking around in the mall

attention... attention... there's a problem in the washroom

Hope all is okay, let's see

Nader entered the washroom

what you have done is not acceptable Saeed, do you accept, if someone enters your house and wastes the water and soap, and misuses the tissues and throw on the ground!?

but this is not our house

We have to consider every place in our country and everywhere like a second home for us and save all properties found there, and keep it clean as much as we can

The cleaner presence does not mean that we ignore maintaining the cleanliness of the place, we should appreciate his efforts in keeping the place clean all the time, and hence we have to help by keeping the place clean after we use

this shall please him and makes him feel comfortable

you are right Nader, I will always do my best to keep the public properties safe, same like my properties, and maintain the cleanliness of the public places same like my own place, thanks Nader, you always direct us to the best attitude

Car maintenance

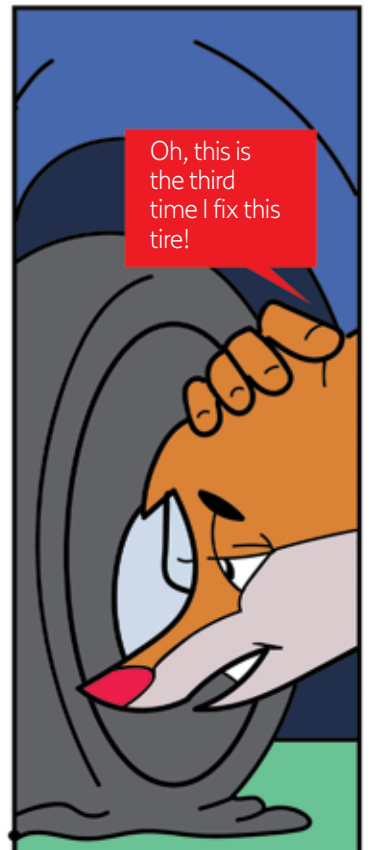

this is Uncle Tha'alob old car, he has not changed for years.

he always suffers of his car, because of its frequent breakdowns, and he never cares when it needs maintenance.

Oh, this is the third time I fix this tire!

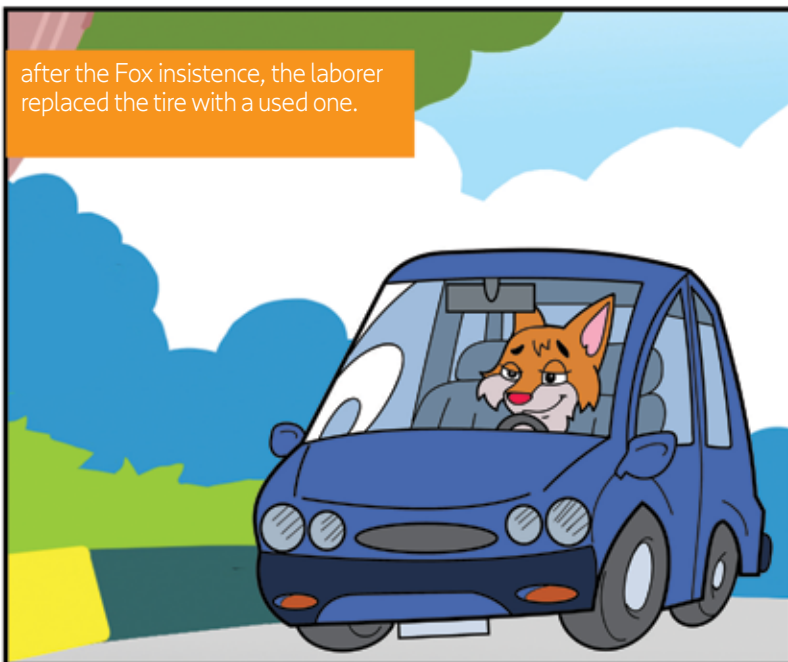

this tire will not endure more; you have to replace it

well, can you help me to find a used tire in a good condition?

try to understand me ... the used tire is not good and not safe.

don't care about my safety, and help me to find a used tire

after the Fox insistence, the laborer replaced the tire with a used one.

what was expected happened after a short time, while the fox on his way to the work the tire blows out.

The Fox tried to control the car and stop it, but to no avail.

True, we celebrated it the wrong way.

Plant Pots with Distinct Characters

Senario & Illustrations: Shaimaa Ibrahim Gamil

Now we have to remove any stickers on the metal containers

and paint each container with the colour we wish

and use the glue to fix the buttons to look like eyes and mouths, this way

Wow, they become similar as true different characters, some of them look laughing and the others angry

Hahaha, true, now let's put the small plants inside them to get the pots with distinct characters for decoration of your room

It is very beautiful, thank you so much Alia

Bicycle Safe Driving Part 4

Welcome my dear friends
... we continue today
talking about the safe
driving of bicycles.

we must abide by all the
traffic signs and lights,
and to be polite and care
for others.

We use the correct hand sig-
nals while crossing or over-
taking to alert the motorists
on the road, it is necessary to
let the others know our direc-
tion through pointing.

Hand signal require a
great deal of practicing,
as we need to drive the
bicycles with one hand
in a straight line, while
using the other hand for
pointing.

pay attention always to the right
and left sides before and after
pointing. Put your hands on the
handlebars while turning.
Next session we shall continue
to explain the right signs for safe
driving of bicycles.
