## Sweet Words

### The Hijri New Year

**Hello Dear friends..**

The Hijri Calendar goes back to the year of the migration of Prophet Mohamed (peace and blessings be upon him) and Abu Bakr Al Sedeik from Makkah to Al Madinah. However, the Muslims have used the hijri Calendar after the death of the Prophet Mohamed (peace and blessings be upon him) and when Omer ibn Al Khattab took over the khilafa (caliphate).

The Hijri year is 10 days less than the Gregorian year as the months vary between 29 to 30 days, while the Gregorian months

vary between 30 to 31 days except February which is 28 days and reaches 29 days every 4 years.

Salama congratulates you of the new Hijri Year and wish you a year free of disease and pandemics, and we all enjoy health and safety on the roads as well.

Happy Year and long life

**Salama**

## Discussion of the Awareness Events with the Permanent Committee of Labour Affairs

The Traffic Safety Department held a meeting with the Permanent Committee of Labour Affairs in Dubai to discuss the awareness events that target the labourers and shall be organized during the next period.

The meeting focused on the necessity to develop the collaboration for the safety of the labourers who use the bicycles while they move around in the labour accommodation or while they commute to and from their workplaces.

## Awareness and Entertainment Events in Modhesh World

The Traffic Safety Department organizes weekly awareness events at Modhesh World for children, which shall continue till the end of August. The events include presence of characters of Salama magazine, educational entertainment competitions for children, a workshop for learning drawing, distribution of copies of Salama Magazine, in addition to valuable gifts and prizes to be distributed for children who participate in the events.

Many delivery companies have responded to the awareness campaign organized by the Traffic Safety Department for awareness by the traffic safety rules for the motorcyclists and safety rules for the delivery bike drivers. Additionally, some of companies including Zoon prepared awareness movies which have been published at TikTok to raise the drivers' awareness with the rules and regulations of the traffic safety for the cyclists and particularly the delivery bikes.

# Happy New Hijri Year

Scenario: Lolwa Thani

Happy New Year on the occasion of the Hijri New Year

Mama, what is the Hijri year?

It is year of migration of Prophet Mohamed (peace and blessings be upon him) from Makkah to Yathrib which is known as (Al Madinah Al Monawar).

Well said Salama

Alslamu Alaikum wa Rahmat Allah Wa Barakatuhu

We all as Muslims wait for the first day of Muharam month which is the start of the Islamic Calendar, isn't it Mom?

Wa Alaikum Alslamu wa Rahmat Allah Wa Barakatuhu

I see that you are busy talking about an important issue

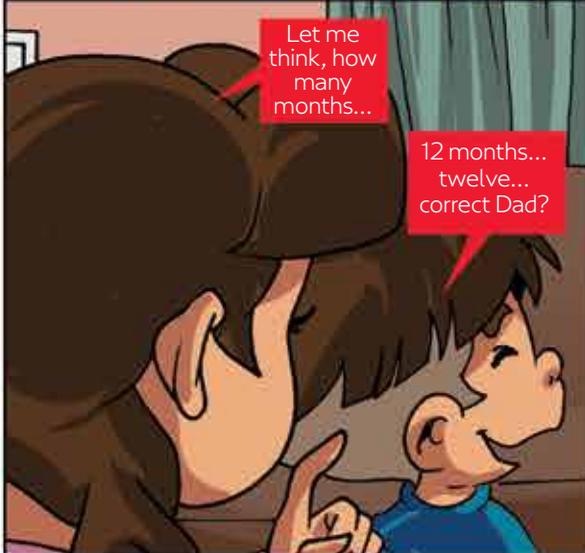

Great! Then, who answer my question will have a valuable gift...ready?

right... we were talking about the Hijri year

Yes, we are ready

How many months in the Hijri year?

Let me think, how many months...

12 months... twelve... correct Dad?

Mabrook, you won the gift

the gift will be on your own choice when we go to the shopping mall.

Bravo, you see Salama, I am smarter than you

I don't know why it came to my mind this saying; it is a shot without shooter!

my baby is smart and educated Salama

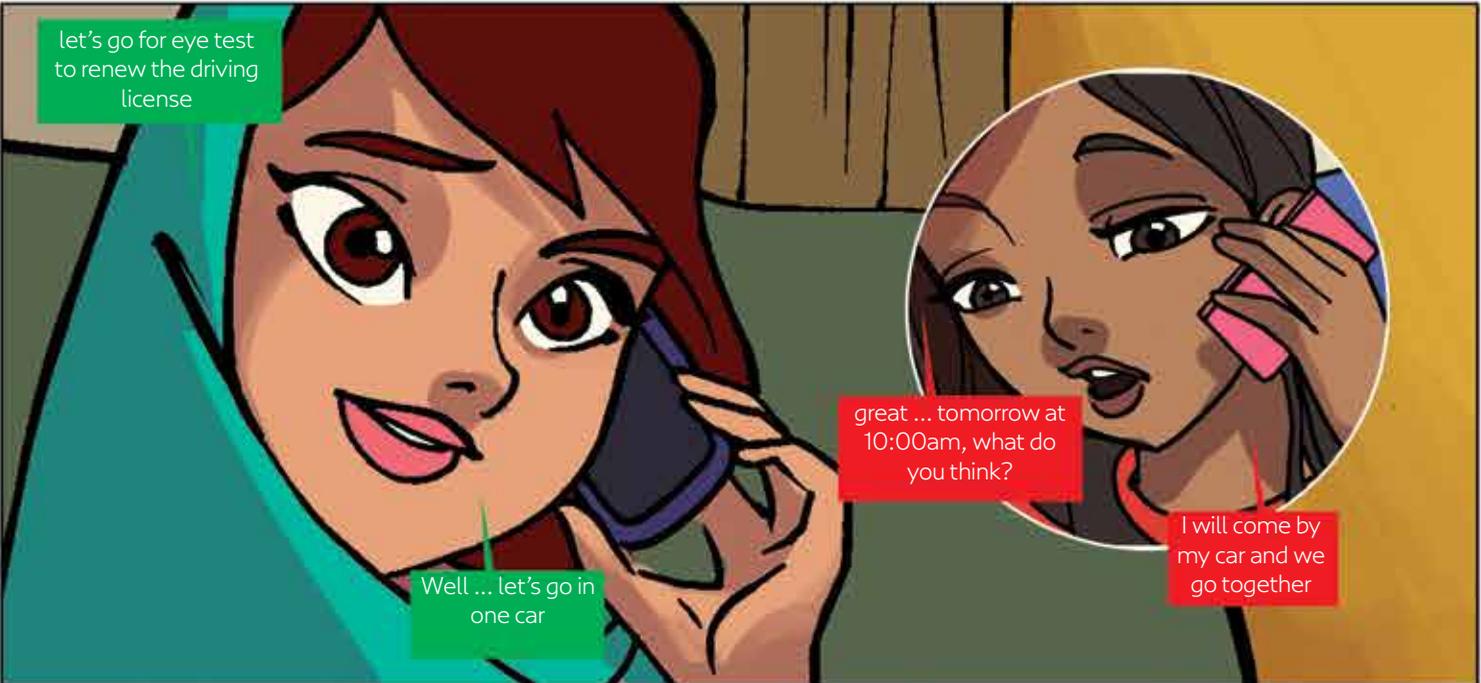

the most important is that I won the gift

# Engineer Salem

## Driving with Eyeglasses

let's go for eye test to renew the driving license

Well ... let's go in one car

great ... tomorrow at 10:00am, what do you think?

I will come by my car and we go together

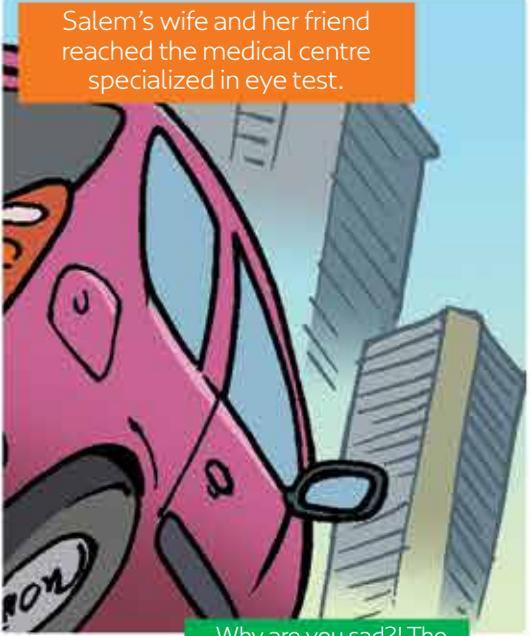

For me, I suffer of seeing the distant objects sometimes

I feel my eyesight is good, but the eye test is necessary to renew the license.

you must take care of your eyesight, since you drive car, this creates a great risk.

Salem's wife and her friend reached the medical centre specialized in eye test.

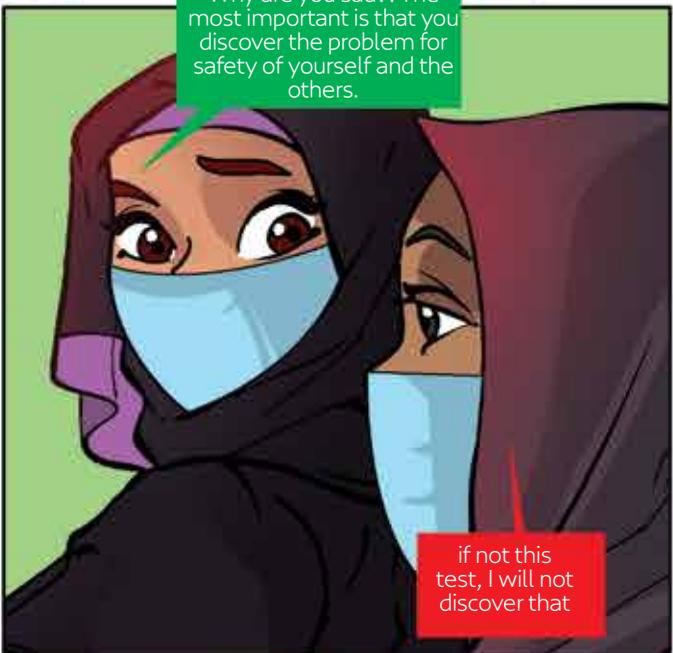

It is necessary to wear the eyeglass while driving the car

This what I expected

Of course, I will not go with you in the car unless you wear it, I don't want to be the first victim ... ha ha ha

Why are you sad?! The most important is that you discover the problem for safety of yourself and the others.

if not this test, I will not discover that

Do I have to wear the eyeglass right now?

Don't worry, I will wear it

How do I look with eyeglasses

more beautiful and elegant.

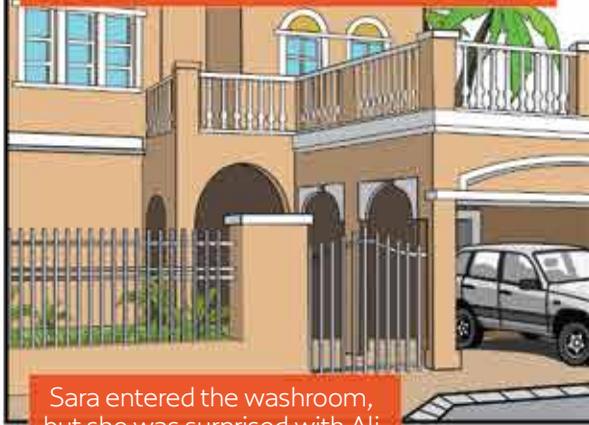

# Super Nader

## The Scary Hide and Seek

Illustrations by: Shaimaa Ibrahim Gamil

Senario: Hamsa Bakhit

the children gathered in the house of their grandmother whom they love so much, and like to visit her house which accommodate all of them, where they comfortably play the hide and seek game.

Sara entered the washroom, but she was surprised with Ali locking the washroom door from outside and switched off the light.

Sara, it is your turn, to enter this washroom and hide.

Ok

No... No... Please, I am afraid, don't do this, switch on the light.

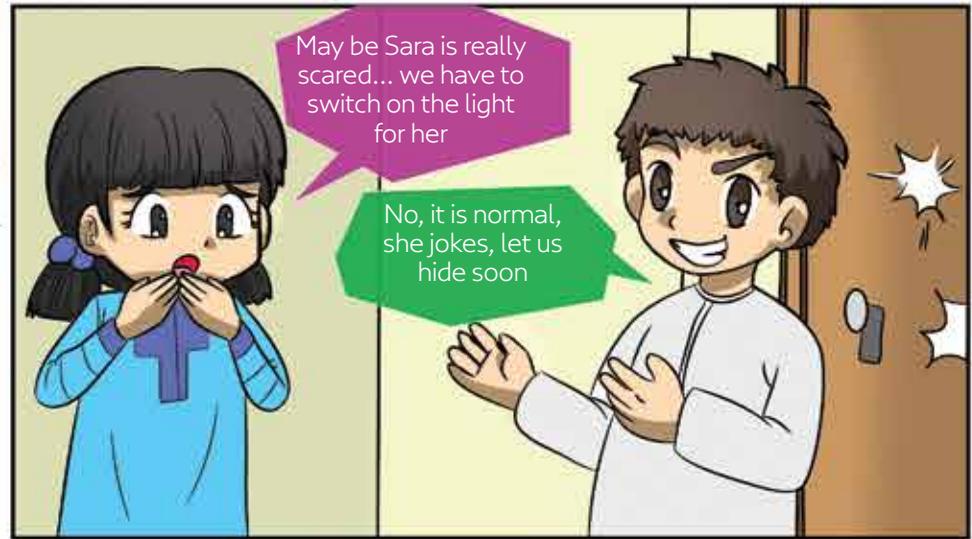

Ha Ha Ha

Nock

Nock

Nock

Maybe Sara is really scared... we have to switch on the light for her

No, it is normal, she jokes, let us hide soon

After few minutes, Ali returned and opened the door and went back hiding, while calling

come out... we are hiding

Sara did not come out

come out ... come out

At his moment, the alarm system rang in the wondrous necklace of Nader which indicates that something happened somewhere

Are you happy with what happened?!

We didn't know

Nader found Sara falling on the washroom floor unconscious, and started to awake her using his skills that he learned in the first aid training. He sent away the children who were surrounding him, looking scared and anxious, while Sara started to regain consciousness and drinking some water.

People's feelings is not Ajock and we have to respect, if someone tell us they feel scared, sad or anxious, we have to take it serious and provide help to get over these feeling safely, otherwise we will not

find Someone to help if we feel bad, and we will not find a person to respect our feelings and support us, and this will be very hard for us.

this happened because of me, I apologize, it is a lesson for me to respect feelings of the others, and will I never underestimate it anymore.

Yes, now we know underestimating the feeling of fears may cause a great danger to a person's life, and therefore, we will never scare anyone.

## Driving at Night

Uncle Dabdob works in transferring food stuff to the market stores at night.

has been driving for many years and he never made an accident, since he abides by the traffic rules, particularly the regulations of driving at night

one-day Uncle Dabdob became sick

he had to give the car's key to one of his friends to transfer the goods instead of him

you shall drive at night... you have to abide by the rules of driving at night.

Don't worry my friend, you know I have been driving for long time

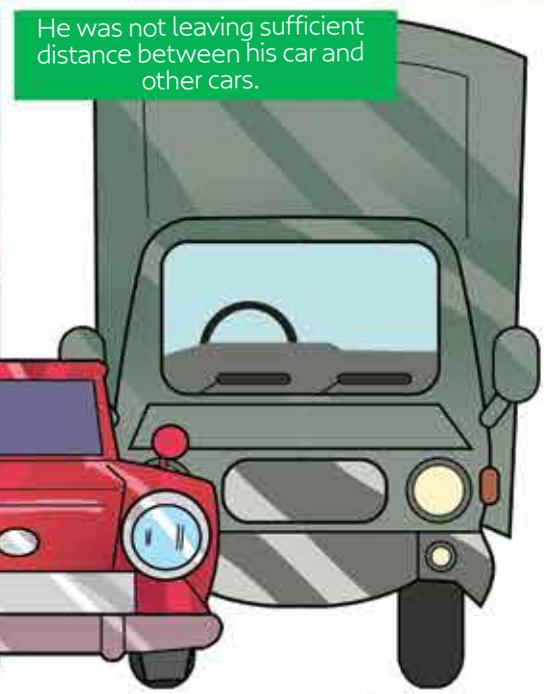

Unfortunately, the friend was not up to the responsibility and was so careless.

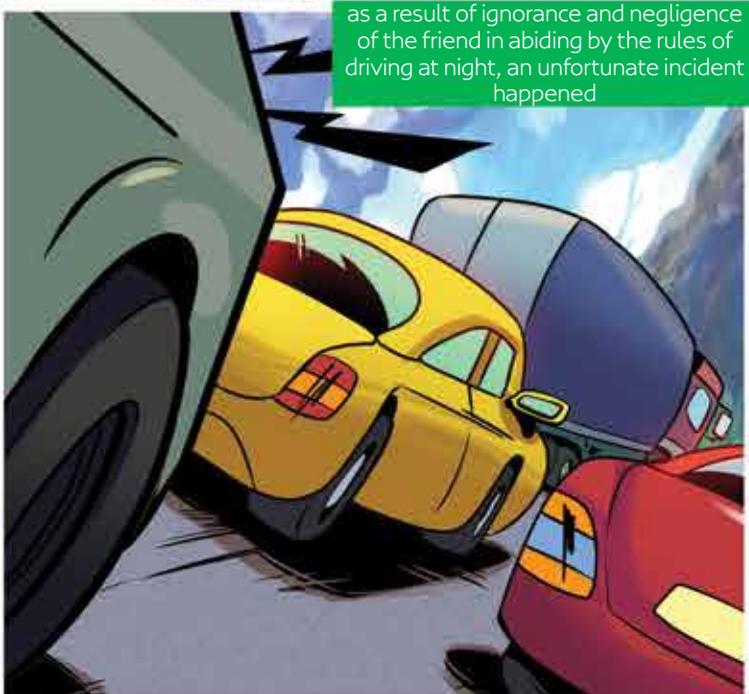

He was over speeding and using the high-beams to force the other drivers to give him the way.

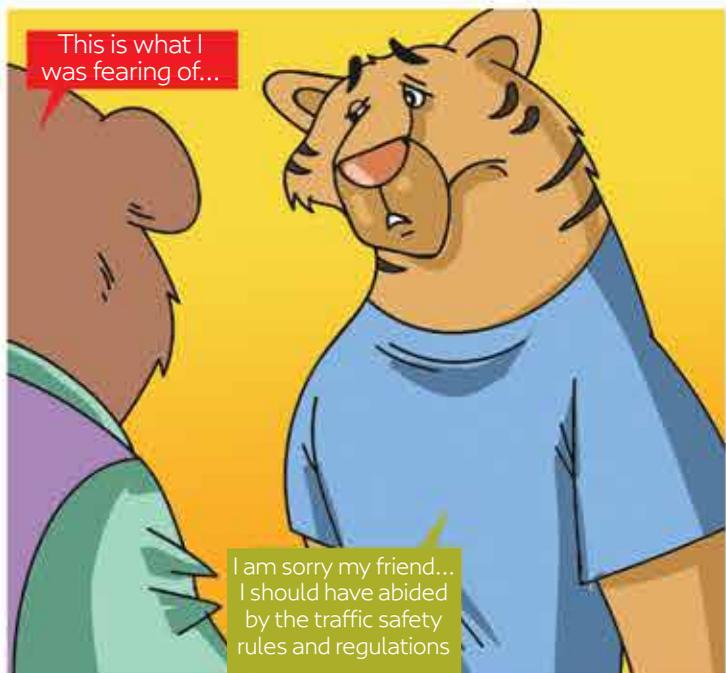

He was not leaving sufficient distance between his car and other cars.

as a result of ignorance and negligence of the friend in abiding by the rules of driving at night, an unfortunate incident happened

This is what I was fearing of...

I am sorry my friend... I should have abided by the traffic safety rules and regulations

## From Scraps to Gifts

Senario & Illustrations: Shaimaa Ibrahim Gamil

Oh, all these are leftover wax, we have to get rid of it.

wait mom, we can use it.

What are you going to do with it?

I will show you the easiest way to recycle wax, and I need your help to use the stove.

Well, tell me

We need:

wax leftover,

scissor,

some wicks that I bought from the local craft store

a pencil

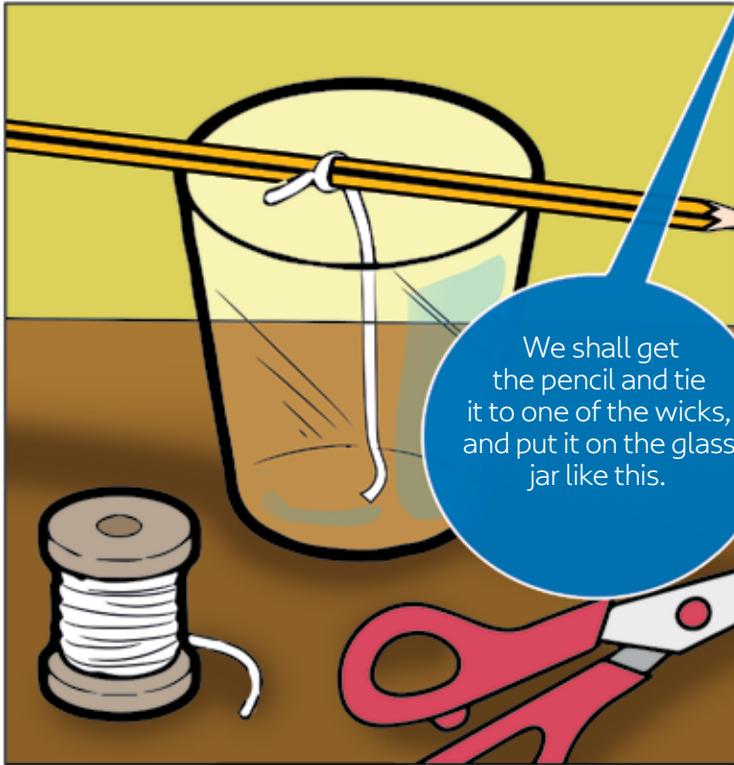

a pot that you don't use often to melt the wax

some empty jars or glasses.

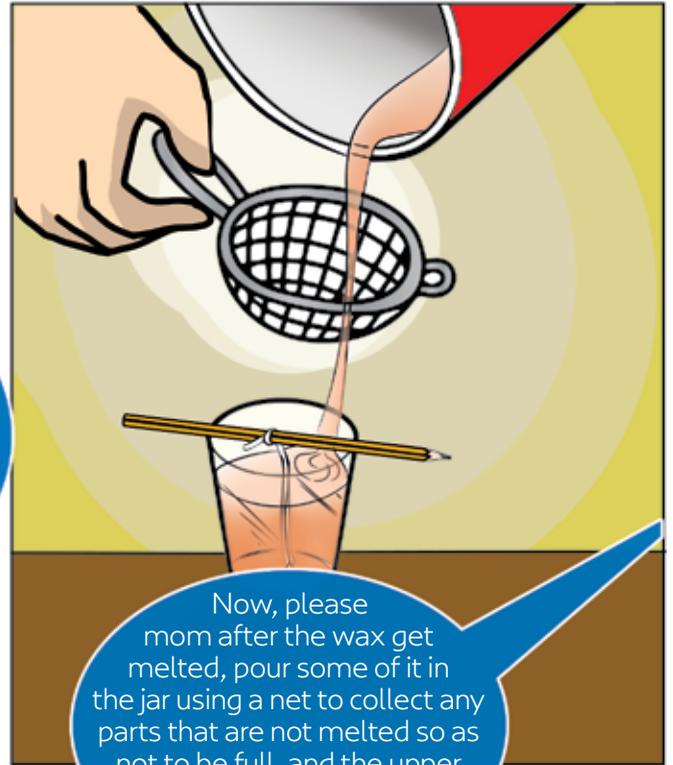

We put the wax in the pot on a slow fire until it completely melt.

I will wait beside the fire, what is next?

We shall get the pencil and tie it to one of the wicks, and put it on the glass jar like this.

Now, please mom after the wax get melted, pour some of it in the jar using a net to collect any parts that are not melted so as not to be full, and the upper part of the wick shall remain outside.

it is done, we have to wait until it become dry and if we have scent or colours we can add to the wax while it gets melted, now what do you think?

I will go now to collect the wax leftovers from our relatives houses and convert it into nice gifts for them.

Ha ha ha ha

## Smell of Success

Scenario: Amal Sabt

Drawings: Shaikha Al Shamsi

Al Salam  
Alaikum

Wa Alaikum  
al Salam

I would like to  
take you to a tour  
in the Future  
Museum... a  
unique tour at all  
levels

I am ready  
for the  
adventure

Me too,  
let's go

We are now at the  
innovation laboratories  
where researches are  
carried out on health,  
education, smart cities,  
energy and transport

Do you know the  
Future Museum has a  
new technology called  
"the Success Smell", it  
helps the human to  
recognize the social  
compatibility  
opportunities with  
persons through the  
sense of smell

The success  
has a smell?!

It is just a metaphor, to  
help the user to identify  
the social compatibility  
opportunities with the  
surroundings through  
smart tests

What a wonderful,  
great expression  
and suitable for the  
smart future

Wait for us at the  
Museum of the Future

## Repair of Tires in Summer

Scenario: Loulwa Thani

What Happened?!

Are you ok?

Thank you... I don't know what happened?

It is the front tires of your car, it looks like it blew off, but luckily you were driving at a low speed.

but I have changed the tires before two months only, after I got them at a low price.

Be careful Madam, may be the price was low because the tires were not original

My God! I have to replace them all with original tires.

Exactly... it is important to take care of the car tires and repair them especially during summer

You are right

Good bye

Thank you so much

## Checking the Bike

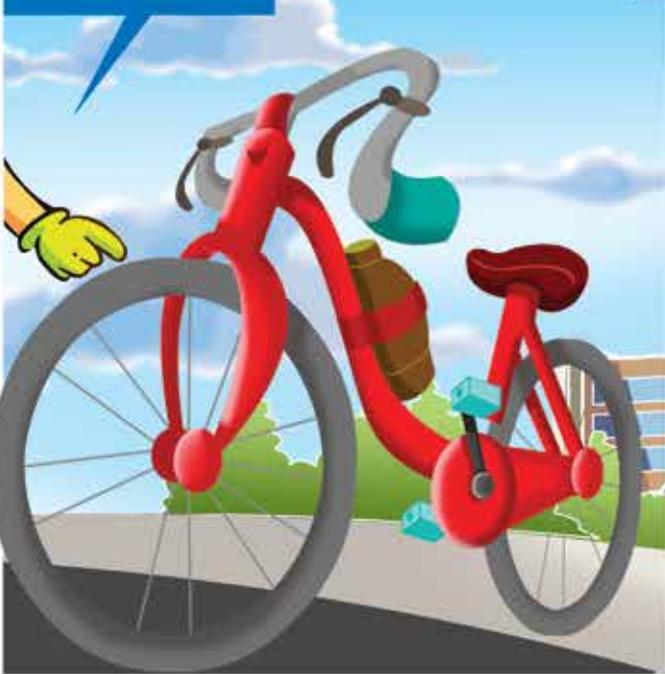

Welcome my friends... to drive the bike safely we have to check it carefully, according to the following steps:

ensure the safety gears and brakes

Check the two Tyres and make sure of the air pressure in each Tyre.

Don't drive the bike in the car parking

Don't forget to ensure that the road is empty and cycle in the areas designated for bikes, and follow the instructions of bikes.
