Safe school transportation

Hello Dear friends..

I am very happy for starting of the new school year 2021-2022 and the physical return to my school that has taken new and useful precautionary measures on the school bus to ensure the safety of all students on board the bus through keeping social distancing and using almost half of the available seats instead of filling them all.

There is another beautiful thing: my school is keen to sterilize the school bus before and after we get off it. In doing so, our school is caring for keeping us healthy. The driver and supervisor of the bus have a great manners, and ready for giving hand to students at any time. For example, as one of my classmates fell over yesterday while leaving the bus, the driver stopped to ensure her safety, and the supervisor rushed to her and took out the first aid kit, bandaged the wound, and helped her enter her house.

How wonderful Back-to-school is! And remember that the best thing is to maintain your safety and stay healthy, and make sure to mask up like me with carrying hand sanitizer and keeping a safe distance between you and the rest of schoolmates.

Safe School Transport

who said Dad is going to drop us?... Let us ask him

Dad will drop us off to school... I miss the school bus

Are you going to drop us to school tomorrow Dad?

No... you will take the school bus

Hey, Hey... Long live beautiful Dad

why are you so happy?

He was thinking that Dad is going to drop us, since that is safer.

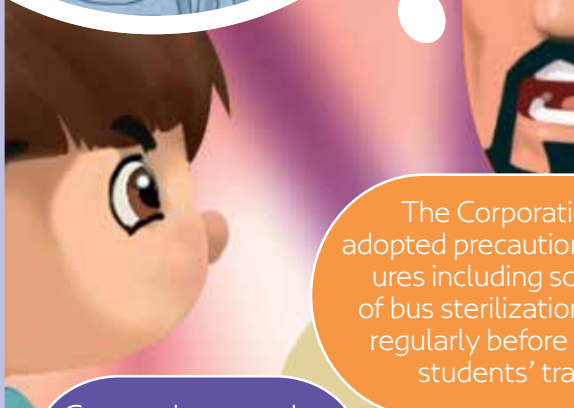

The school bus is safe and adheres to all precautionary measures

RTA's Dubai Taxi Corporation of is fully prepared to receive the school year with 400 buses... providing safe and easy transport to all the students and provide unique service .

Selecting highly qualified and professional drivers and supervisors.

The Corporation has adopted precautionary measures including scheduling of bus sterilization program regularly before and after students' transfer

Great... but we play a big role to make that successful

How?

We have to wear face mask inside the bus, and adhere to the supervisor's directions and to avoid hand shaking or touching the belongings or tools of others

and to report to the supervisor if we feel fatigue or respiratory symptoms and to clean hands with the sanitizer before riding the bus and after getting off it.

It is going to be a happy school year in sha Allah

Al Hamdu lilah, we are returning gradually to our normal life and our school transport is safe.

Engineer Salem

Written by: Hassan Al Saadi

I will go back to my School safe

Good Morning

Good morning Dad

Don't forget to abide by precautionary measures of COVID-19 protection,

particularly social distance and wearing face masks inside the bus and school

I see both of you happy going to school

Salem's children heading to the school bus and they are very happy to return to school and meet friends and teachers, while they adhere to social distancing measures

Sitting on their dedicated seats, while they adhere to social distance rules

It was a happy moment, when students met again after spending the holiday... while abiding by all precautionary measures.

The school bus reached to the house of our friend Salem after the end of school time of the first day, which was a happy and safe day for everyone.

we adhere to social distance and wearing the face masks from home to the bus to school.

How was your first day in the school?

It was a very nice day... we met all the friends

and all teachers... we did not feel the day, time passed very fast

How were the precautionary measures at the school?

it was great, mother, and everyone is up to the responsibility

well done

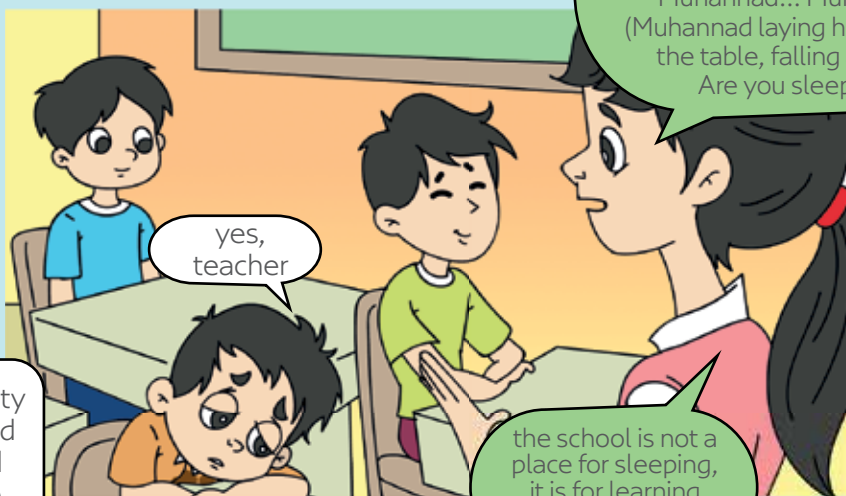

Super Nader

Scenario: Hamsa Bakhit

The white Shirt and Chocolate Milk!

Muhannad felt sad when naughty boys mocked his untidy hair and his shirt, which he had stained with chocolate milk a while ago...

yes, teacher

who will tell me about the difference between the pets and non-pets?

Muhannad... Muhannad (Muhannad laying his head on the table, falling asleep)
Are you sleepy?!

the school is not a place for sleeping, it is for learning and activities.

No kidding ... we have to respect each other

where is the science book? And where are your pens?

in the bag

take them out and focus on the lesson

can you tell me why you came to school today? Your hair has not been combed and you were sleeping during the class, and you have not brought your books and pens!

If you repeat this again, I will alert your guardian.

During the break time
The naughty boys return to make fun of Muhannad again...
Muhannad got annoyed by his behaviors, his negligence, and the boys' mockery of him, when Nader's strange necklace lit up, making a beep indicating the location and the problem.

and now my friend you have to know some of the school rules and adhere to the same to be a diligent and beloved student...
You have to sleep early to get up energetic and attentive during your classes.

In minutes, Nader was standing beside Muhannad. He raised Muhannad's head, and found his eyes full of tears.

And of course to abide by all the safety measures such as the face mask, using sanitizer and leave distance between you and others.

You have to pay attention to your appearance, your teeth, hair and clothes
Prepare your books and school needs and check them at night before you sleep.

Thank you for your support to me, I will do what have mentioned and shall take care of it.

and you remember that gentility, politeness and respecting others making us distinguished and lovely... and this is the real strength.

Boosting the Children Immunity

Dear Friends,
today, we meet in
a new and impor-
tant episode to talk
about boosting the
children immunity

The Immunity system is the first defense
line for adults and children. Boosting
the immunity system helps the children
to grow healthy and protect them from
diseases

one of the important ways
to boost the immunity sys-
tem is to take healthy food
and enough vitamins and
minerals

I mean, meals should be
rich in vegetables, fruits,
proteins and carbohy-
drates.

Sports and activities are among the important factors that boost the immunity system and the psychological health.

particularly walking in the morning to benefit from the sunlight to get Vitamin D, which plays a key role in boosting the immunity system for children.

I advise you my friends never sit with the electronic gaming devices, smart phones and tablets for a long time.

Don't forget to drink fresh juices and enough water every day, and sleep enough.

Inspector Hamad

Expo 2020

Many projects have been developed for this event, including Route 2020, which reflects the strategic goals of the Roads and Transport Authority in Dubai. It includes developing an integrated and balanced transport system that serve all categories of the community.

Route 2020 reaches out to the Red Line Metro station of Nakheel Harbor and Tower at Expo 2020 Dubai with 15 kilometers, 11 km above ground and 4 km underground.

the route passes through seven metro stations, one is an interchange station with the red line and one station at Expo location. Three stations are above ground and two others are underground.

the project includes also implementation and completion of the necessary intersections to serve the exhibition, as well as development of intersections on the surrounding roads, and building parking spaces for 44 thousand vehicles to serve the exhibition visitors.

very nice

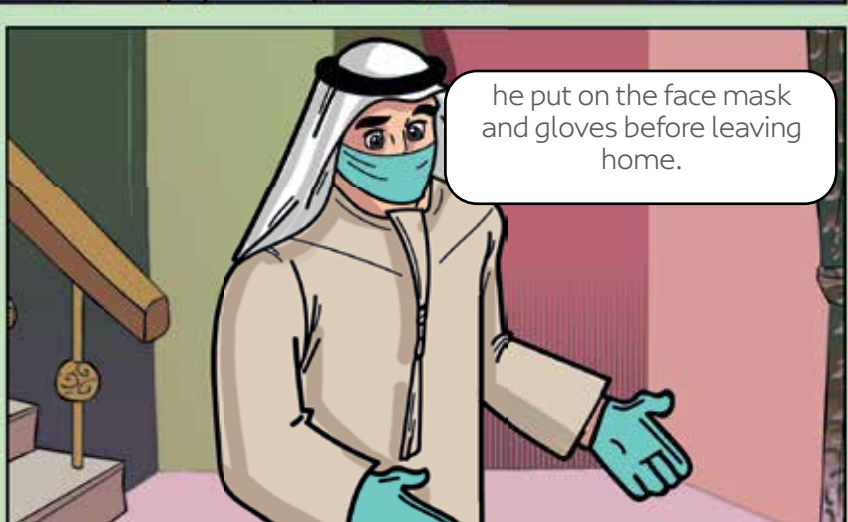

there are many other projects and services that we shall explain to you in our next sessions... see you soon

safe road

Scenario: Ayamn Farmawi

Safe and Pleasant Trip

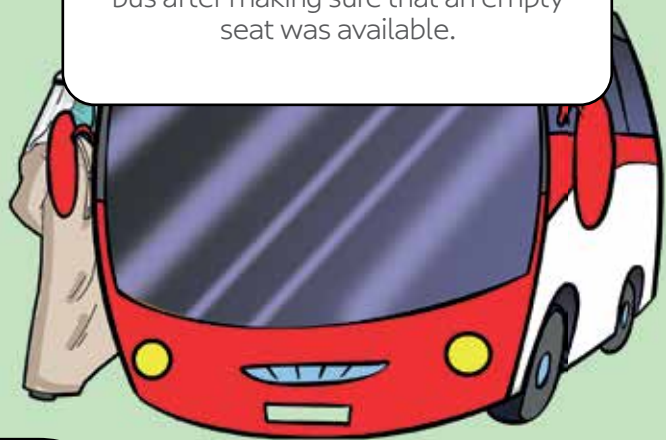

he was keen to leave a distance between him and the others, while waiting for the bus.

the bus driver stops only when the number of passengers meets the social distance measures, otherwise, it stops only to drop off passengers.

Saif avoided the crowd while riding the bus after making sure that an empty seat was available.

the stop bell button is out of service to avoid touching the surfaces.

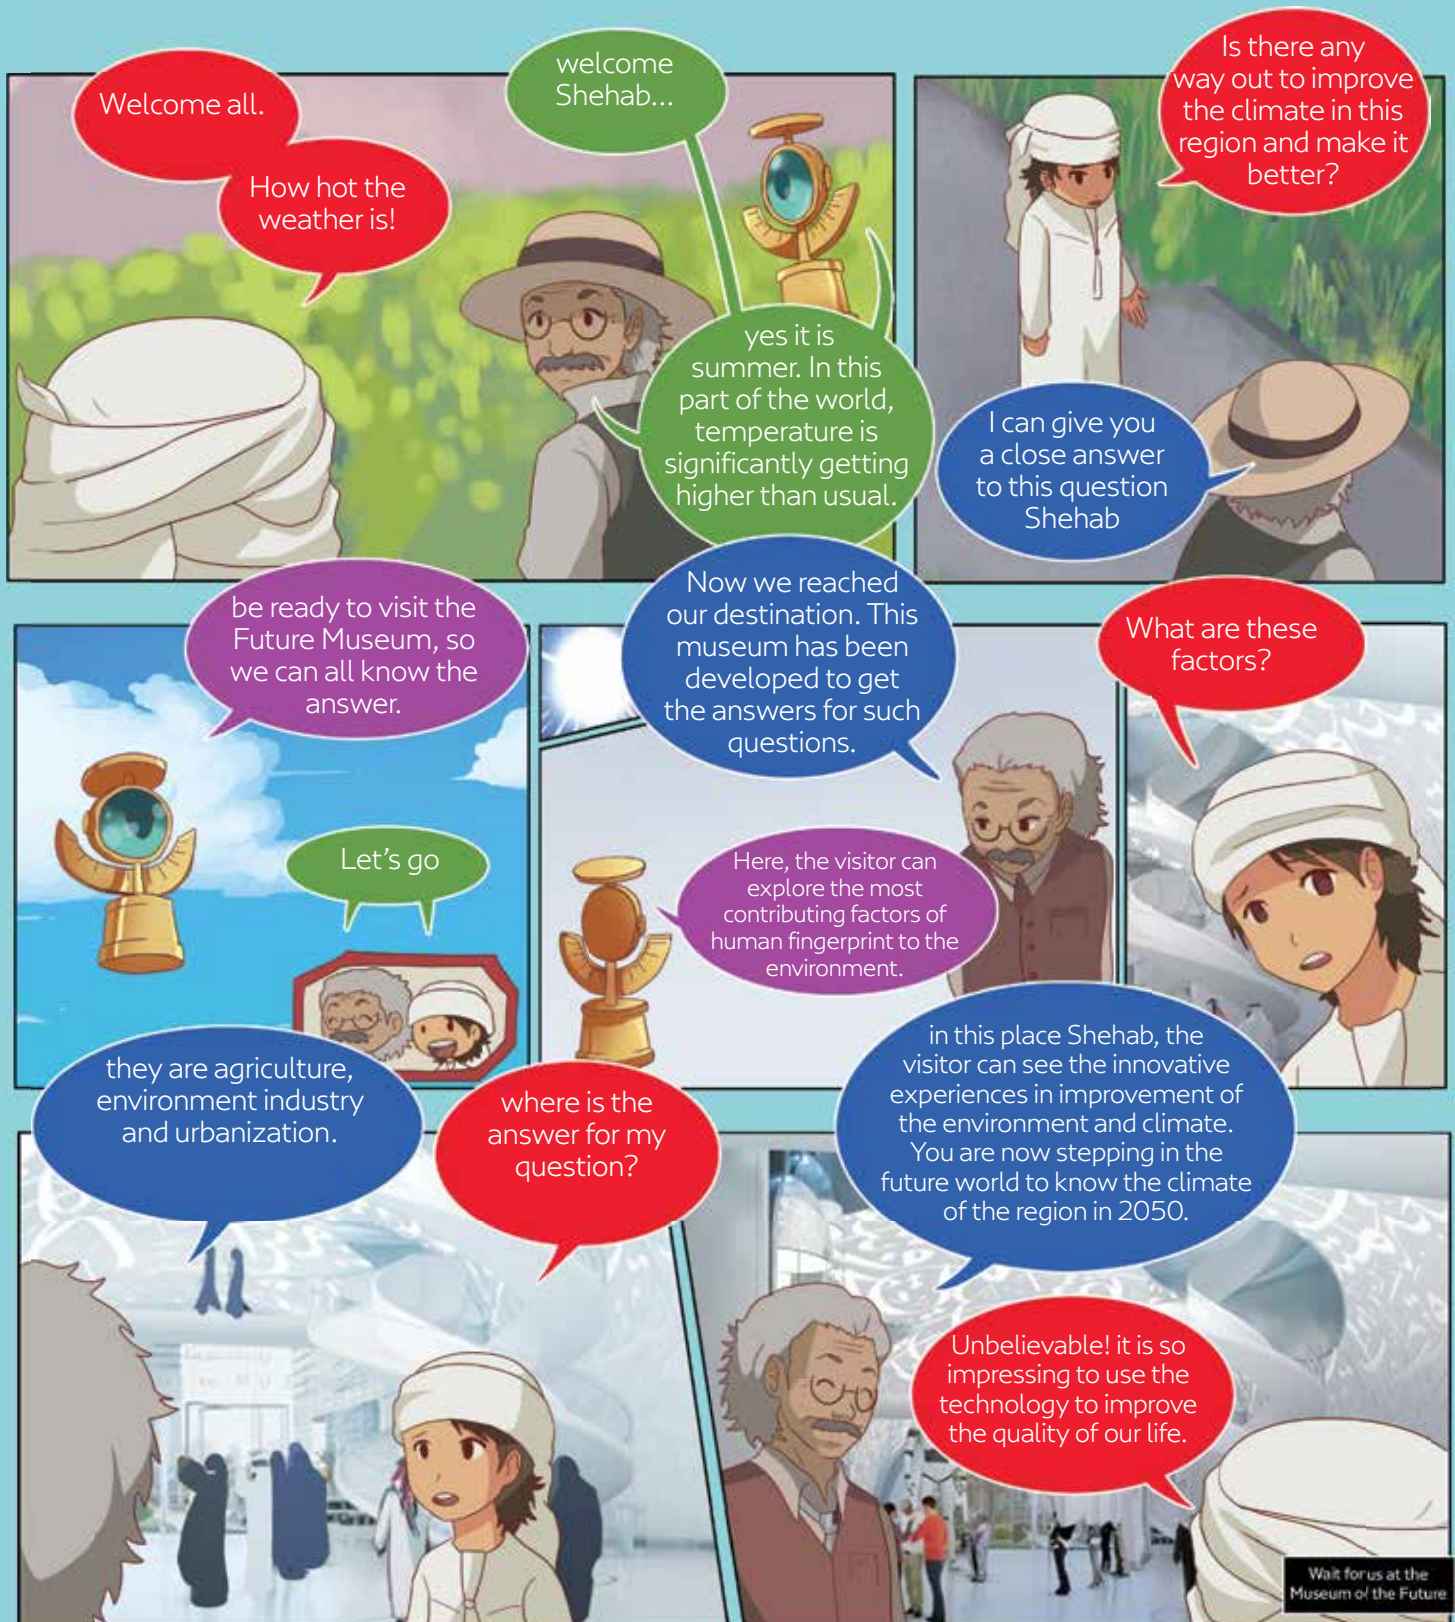

and pleasant trip, avoid using the public transport if you are feeling symptoms of the disease.

Salama “Smart” Application

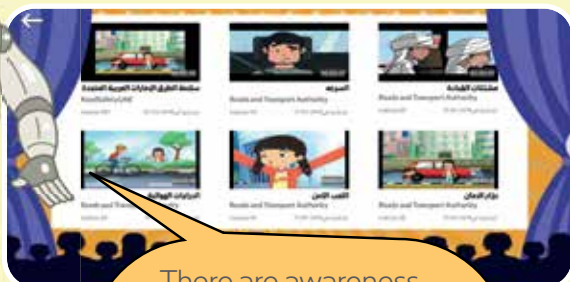

Welcome... I am your new friend Mahboob, I am going to tell you today about “Salama” application which has been developed by RTA with the latest smart technologies to make it suitable for people of determination.

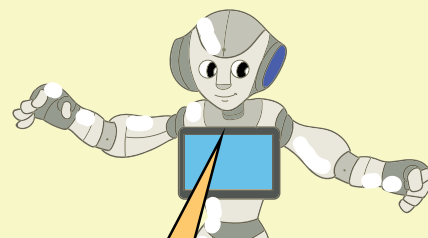

(Salama digital magazine), offers the readers an easy access to browse the magazine through an interactive new program that enhance the virtual reality and provides an easy enjoyable reading experience for children.

the application features interesting games, and a library of animated audio comics, and stories where Grandmother Oasha tells about the authentic Emirati norms and traditions

There are awareness movies that deal with specific traffic issues in an easy and attractive way.

on (Android), (IOS) or (App Gallery), we search for (Salama magazine) and download “Salama” application to enjoy the smart content of stories, animations, as well as surprises.

New Beginning

waits eager and excited for the beginning of the school year tomorrow, she looks busy to prepare the school needs and sleep early.

Have you seen my pens?

she discovered that some pens are not in her bag.

playing at his time!!
Tomorrow is the beginning of the new school year

I will sleep late tonight and will not go to school... tomorrow is the first day and is not necessary to attend.

there will mostly no new classes and teachers will only recap the previous year information.

You will find them on my desk... don't disturb my game, so I will not lose

Dad... Mom... (SS) tries to convince me not to go to school tomorrow and claims that you will agree on that

Why?

they will agree with me, when I tell them my point of view

after (SS) explained his point of view

You are not right and staying up late is not acceptable during the study time or so.

it is important to be always serious in your study... the right and punctual beginning is important for success

I have not decided alone to be absent... I agreed with my classmates on that, some of them will be absent all the first week

Incredible!... you agree to break the rules and on lack of discipline!

unjustified absence a reason is wrong... but the more serious is abetment to bad behaviors and collective agreement to commit it.

I am sorry... I promise you not to repeat that... and shall correct my mistake

How?

I will advise my classmates to go to school tomorrow and explain them that our agreement was wrong.

using mobile phones while Driving

Astory by;
Celynne maria
Vernice M. Dungca

The quote "safety First" means that you should consider this issue seriously. Imagine that you are playing a game while your car's running and you suddenly hit an innocent person, how would you feel? Of course, you'd feel guilty.

Many people would get affected by this accident; especially his/her family. Imagine the people that could get hurt because of your behaviour. Horrifying, isn't it? So, this case is something all of us should consider it isn't even a good thing because it makes the world worse than ever.

To avoid this, we should just focus on one thing; driving. Well, if it is an urgent call, you just wear a Bluetooth earpiece, because if you use your phone directly you would just lose your attention to the road. And, make sure to be alert while driving; you should Always follow what the sign says.

Nowadays, the number of people dying with car accidents is increasing; due to the use of mobile phones while driving. And, social media accounts take a part of this issue. Some drivers are posting photos on Facebook while driving. Some of them tweeting; and others do more. We should stop this. Social media can wait, games can wait, the lives of people matter.

Would 15 minutes of driving hurt? Would it be awful not to touch your phone for one or two minutes! Just consider yourself and mine. I am here to speak out my thoughts and to tell you guys to be aware of everything. As a -13years-old high school girl, I am concerned about this topic, and as an adult you wouldn't want to hurt others, right? You wouldn't want to put your family safety under attack or risks, or even your passenger's safety.

Let us be careful and avoid dangerous accidents and be happy.
