Expo 2020 Young Innovators

A tour across the Wondrous Waterways of Dubai

Sweet Words

Protection inside the School

The world in Expo 2020

Hello Dear friends..

Did you know my friends that the United Arab Emirates and Dubai in particular, is hosting the world now? Yes, over 190 countries from across the world continents are participating in the Expo 2020, which starts on 1st of October 2021 and will continue to 31st of March 2022. We have all been awaiting a global event that includes a lot of diverse activities including entertainment, educational, cultural and artistic. It offers a great opportunity to learn about different cultures of the world through visiting pavilions of participating countries. My friends... my family and I will be keen to interact with the interesting shows and activities launched by Expo 2020 Exhibition, and I will volunteer to serve this distinctive event organized by my homeland UAE for the first time. I will also invite my friends to volunteer to serve our country and benefit from this experience, which will offer us a lot of information, knowledge and science related to customs, traditions and development of many countries in the world.

Expo 2020 Young Innovators

I see you are busy Salama, and you just informed me that you finished your homeworks! What keeps you busy?

you are right mom, I finished my homeworks, and am now doing a search process

What are you searching for my dear?

I am searching on how to register as a volunteer in the global event

Well done my daughter, volunteering is a bright picture of serving your homeland.

She means Expo 2020

How do you volunteer Salama, I want to participate with you?

I thought you already did that... do you remember months ago?

Aha, you mean when I participated in the school program entitled "The Expo 2020 Young Innovators."

I am currently searching, and sure will register your name, if there is a volunteering role that suits your age

What is "The Expo 2020 Young Innovators?"

the program is an initiative launched by Expo Management and invited the school students from different emirates to participate with useful innovations for the community.

and Salama participated with Drone for delivering services related to education sector and school students

That's great!

You participated in Expo Exhibition... then, what are you searching for Salama?

I am interested in participating in the event itself, and attend every day at the exhibition venue, meet visitors and explain for them our success in the virtual education, for instance.

Great idea... Wish you success Salama, the innovator.

Amen... thanks Dad

Protection inside the School

Yes, it includes all the personal stuffs and not only food

We should not forget using the sanitizer after touching surfaces. I kept it in your bags

No need, there is sanitizer everywhere in the school

It is better to have your own sanitizer all the time for emergencies.

I will tell my friend to bring the pastries he loves, to maintain our safety

I will call the mother of your friend, and tell her of best way to cook cheese with thymed pastries

Thank you mother... it is safe and nice solution.

Super Nader

Dangerous Noontime Mama

Jawhara rode the car with her mother after the end of the school day to go back home.

I miss you Mom

Me too Jojo...
how was your day
sweetie?

I found a new friend and
she ate all my food...
the food was seemingly
delicious, so she liked it...
thanks Mom.

Excuse me sweetie, I
am going to the Society
to purchase some stuffs
quickly... please stay
quiet until I come

All right Mama...
don't forget the
sweets I love...

Inside the society, the mother took longer time
than expected searching for additional stuff, and
the cashier line was long

Where is Mama!... I
cannot tolerate the
heat and I feel tired

It was very hot outside, and the sun was so strong
and affected the car air-conditioner, which broke
down and Jawhara started to feel very tired

The mother secured the lock of the car doors, and
Jawhara could not do anything except knocking on
the windows, a passerby might help her

Suddenly, the alarm system rang in the wondrous necklace of Nader... the place was identified, and he was there immediately ... he took an amazing device from his pocket, the car door opened instantly and an alarm sound started

Nader sprayed Jawhara's face with some water and it took minutes for her to regain consciousness.

Madam, Leaving a child alone in the car may cause body temperature to rise very fast, and the child's temperature may increase by 20 degrees within 10 minutes and 40 degrees in an hour, which may cause heat stress that causes damage to brain and other parts of body.

I admit my mistake, Al Hamad Lilah Jawhara is safe... Thanks Super Nader for saving my daughter in the right time ...I will warn all my relatives, friends and neighbors not to leave their children alone in the car for whatever reason

Miss Alia

The Importance of Breakfast

Welcome my friends ...
today I will talk about the
importance of breakfast,
especially for children,
which needs to be a
healthy meal.

the breakfast provides our
bodies with the
necessary nutrients and
energy we need to start
the day actively and
lively.

As for students, it
increases their
concentration, enhance
their mental capabilities in
their educational attainment
and boost their immunity.

the nutrients that
breakfast should contain
include carbohydrates,
which is an important source
of energy and movement...
and proteins for building
muscles

milk and its derivatives is important for bones and teeth... as well as vegetables and fruits, which contain vitamins and minerals.

It is better to avoid sweets, chocolates and sweetened juices, crackers saturated with unhealthy oils and salts

instead, we take unroasted nuts, dried fruits or vegetable, fruit salad and homemade natural juices

Don't forget to drink enough water as it protects from dehydration and supports concentration and improves memory.

Inspector Hamad

Adhering to Speed Limit in Residential Areas

the community inhabitants deserve to enjoy calmness, children play peacefully and hence this mandatory traffic sign is placed to maintain public safety.

the container is in the right place, but you were speeding and were about to run over this man near his house

Oh, my God! Are you all okay?

Al Hamdu Lillah, we are okay... how a container is placed in a residential area like this?!

when you drive fast and recklessly, you won't notice even a camel in front of you.

the RTA placed this mandatory traffic sign to set the speed limit in residential communities by not more than 40 km/hour.

I am sorry, I did not notice that he was there

I apologize... forgive me... I was really driving fast.

for your safety guys and safety of all inhabitants of this beautiful community and internal road users, please abide by the speed limit while driving

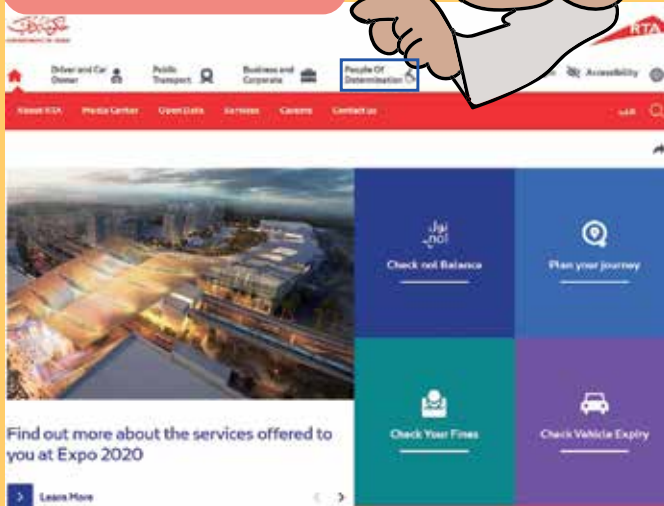

Sanad

Expo Buses

What do you think if we explain for friends the EXPO Rider Bus Service from various emirates to Expo 2020 Exhibition?

Good idea...

from Abu Dhabi International Airport Bus Station to Mobility Gate, 10 buses with 31 daily trips and 33 daily trips on Thursday and Friday

from Abu Dhabi Main Bus Station to Mobility Gate, 10 buses with 26 daily trips and 29 daily trips on Thursday and Friday

from Al Ain Bus Station to Sustainability Gate, 9 buses with 22 daily trips and 25 daily trips on Thursday and Friday

from Marina Mall Bus Station to Mobility Gate, 10 buses with 27 daily trips and 28 daily trips on Thursday and Friday

This is for Abu Dhabi and Al Ain... What about the other emirates?

In the Emirate of Sharjah, from Al Jubail Bus Station to Opportunity Gate, 10 buses with 29 daily trips and 33 daily trips on Thursday and Friday

From Muwaileh Station, 10 buses to Opportunity Gate with 32 daily trips and 37 daily trips on Thursday and Friday

From Ajman Bus Station, 7 buses to Opportunity Gate with 17 daily trips and 18 daily trips on Thursday and Friday

From Ras Al Khaimah to Opportunity Gate, 7 buses with 17 daily trips and 18 daily trips on Thursday and Friday

From Al Fujairah (nearby City Centre) to Sustainability Gate, 4 buses with 9 daily trips and 10 trips on Thursday and Friday

We meet again at Expo 2020... See you

safe road

A tour across the Wondrous Waterways of Dubai

Dear Students... as part of precautionary measures, the school decided to take you on a water tour to make you happy

La Mer: is a cosmopolitan beach destination, located in Jumeirah area, it features an amazing view of the Arabian Gulf shore

On Dubai Ferry, we shall start from Al Ghubaiba to Dubai Marina, to view some of Dubai's attractions using the transport services that facilitate movement of millions of passengers in the city:

Burj Khalifa: the world's tallest building with 828 meters.

Burj Al Arab: the all-suite luxury hotel offers a range of fine dining restaurants.

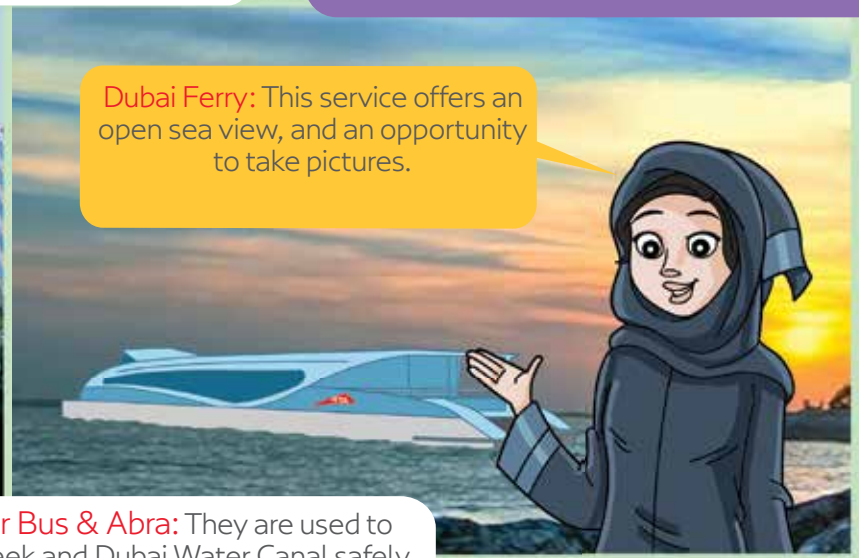

Atlantis: Is the world's first 8-star hotel, with the largest aquarium and water park that can accommodate more than 5000 people a day.

Dubai Marina Mall: is a shopping mall located on the waterfront and offers a range of coffee shops, restaurants and stores.

The aim of our tour is to know the transport services provided by Roads and Transport Authority including:

Dubai Ferry: This service offers an open sea view, and an opportunity to take pictures.

The Water Bus & Abra: They are used to cross the creek and Dubai Water Canal safely and conveniently with a traditional design in a luxurious atmosphere for a unique cultural and historical experience.

The Water Taxi: It accommodates 11 passengers in addition to the boat captain with a space for people of determination. It is 11-meter long and 4-meter width.

Suhail Application

Welcome my friends... today I am going to talk about "Suhail" application, which helps us to move easily all over Dubai

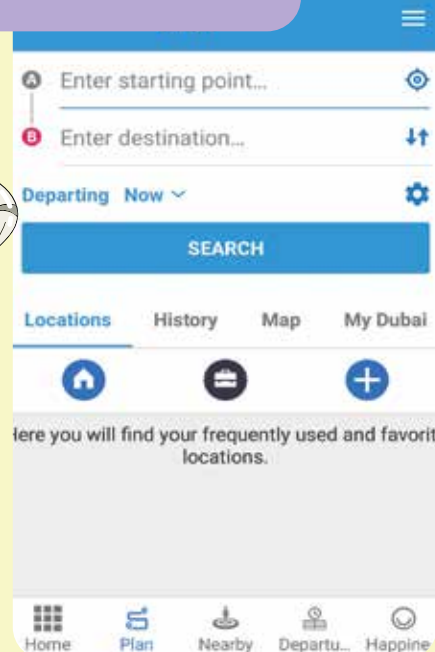

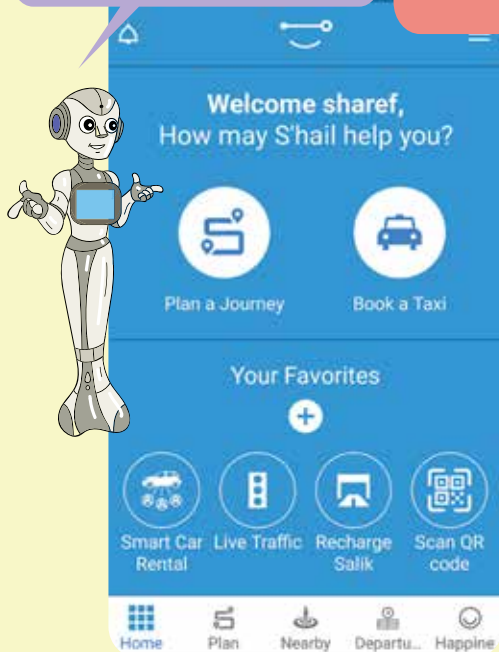

on (Android), (IOS) or (App Gallery), we search for Suhail, and download the application to be our companion while we move around and accompany us in Dubai

The application will welcome us when we finish downloading, and request us to register, so we can use it in a better way.

After that, it will take us to our page and asks: how can "Suhail" help you, do you wish to plan a trip or book a taxi?

We can add our favorite options through requesting: vehicle smart rental, traffic status, Salik recharge, deleting the rapid response code.

Help not Reliance

Yasser eagerly waiting for the new issue of Salama Magazine every month, and he is keen to read its useful stories and go through its great sections.

Water... water... maid,
you don't hear!

What happened?...
whom do you call
loudly?

why don't
you bring it
yourself?!

I need to drink water...
I called the maid many
times to bring me
water, but she was not
answering

It is her job to serve
us and she is paid for
that

what is this
mess in your
room, Yasser?

this shows that the
maid is not doing her job
properly.

That is not true, she cleaned and maintained the room in the morning, and you have to keep it tidy the whole day.

I noticed that the maid is not in the house for a while, what is the reason Mom?

I have sent her to buy some necessary stuffs from one of the shopping centres

this explains why she was not hearing my voice, when I was asking her to bring water... if I knew this, I would have called Sara instead of her

you have to get used to depend more on yourself Yasser, and specially for such small issues

I promise to try that Mom

The house work is too much, and help provided by the housemaid to us does not mean to depend on her for everything.

Salama's Friends

This page is dedicated to Salama Magazine's friends; It opens its arms to the talented and distinguished persons who wish to express their ideas and hobbies, and what is worthy of writing or discussion. Write to us, don't hesitate, and we will help you to appear on this page in the way that makes you among the distinguished friends of Salama Magazine.

Texting while driving

Story by;
Athena Nicole Tivi

Personally, I think that it is a really bad idea to text or use your mobile phone while driving. If you use your phone while driving, surely you won't pay attention to your surroundings which will cause car accidents. You might run over a person or hit someone, collide with another car or bump into a post. Maybe you'll be breaking the rules. One common example is when your car is still in a neutral position while other vehicles are already going, which usually happens in places where there are traffic lights.

In order to drive safely, you must focus on the road and concentrate because we don't even.

Know what will happen next, probably the lights will suddenly turn red, or there might be people hurriedly running to the other side of the road. According to RTA (Roads and Transport Authority), more than 50% increase of death here in the UAE because of using C. P. while driving. Even the government has banned people

from using mobiles while driving. Do not mind your phone, which is ringing, and just answer it after driving.

Your life is more important than your phone. Would your phone save you from death?

No. It might be even the cause of your death.

Would your phone help you from paying fines to the police?

Of course not. Cellphones are just objects. Phones are not really important if you look closely. You're supposed to be responsible enough to take good care of yourself.

People should concentrate and pay attention to what is in front of them rather than wasting their time on phones texting or calling someone and not caring at all.

Your life depends on you. This is why I think that it is really dangerous to use your phones while driving, on.
