

Your gateway to driver-less transport

RTA is committed to achieving the vision of His Highness Sheikh Mohammed Bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai. The vision of transforming 25% of all passenger trips in Dubai to driverless trips, by 2030. 13% of daily trips in the city are made for logistic purposes. Therefore this segment is of great importance to the economy and transportation goals of Dubai.

Dubai World Challenge for Self-Driving Transport 2021 focussed on this segment. It brought pioneers, world leaders and academics to work with RTA, in order to advance technology and tackle inherent challenges. At GITEX this year, participants will have the opportunity to unveil their self-driving vehicles to the public.
