

# 3D-printed electric Abras

## It's innovation in motion.

A new generation of noiseless and emission-free public transport.

[rta.ae](http://rta.ae)

The 3D-printed electric Abras, the first of their kind, are manufactured in partnership with the private sector.

### Features

- 90% reduction in Abra manufacturing time
- 30% decrease in Abra manufacturing cost
- Capacity for 20 passengers
